

#113 Carol's Corner Cafe Instructions

Please follow the HO scale general instructions for #100 and #200 Series Kits which are enclosed in this kit. You will be referred to the drawings and notes printed here. Please read through all instructions before beginning to build your kit.

Chimney

Lightly sand bottom edge of chimney back (113-6) until flat. Sand or file the smooth side of chimney back and molded-in chimney front so back and front fit tight and are flush with each other. Glue together. When glue is dry, sand the top of chimney until flat.
