

WOODLAND SCENICS®
SubTerrain
LIGHTWEIGHT LAYOUT SYSTEM™

FOAM PENCILS

Foam Pencils allow you to mark on foam without damaging it. Use Foam Pencils to mark cutting lines on Profile Boards, to indicate roadways, track location and wiring. For Example: Mark Profile Boards in black and track plans in red. Foam Pencil marks may be painted over with latex paint. Two coats may be required.

Read the Sub-Terrain How-To-Book to learn the complete SubTerrain Lightweight Layout System.

For complete information on all Woodland Scenics products send \$1.50 or 5 stamps for Buyers Guide.
