LIGHTWEIGHT LAYOUT SYSTEM

Foam Tack Glue is a specially formulated, non-toxic, water-soluble glue that will not damage foam. Foam Tack Glue dries clear and is flexible. Use it to adhere track, Track-Bed and foam. Use on foam, wood, cork and Homasote board.

NOTE: Adhesion on hard, smooth surfaces should be tested and may be improved by sanding surface.

Working Time: 15 min.

INSTRUCTIONS

1. Apply a bead of Foam Tack Glue to surface.
2. Use a craft stick, putty knife or spatula to spread a thin, even coat over entire surface to be glued.
3. To hold soft material in place while drying use Foam Nails, ST1432.
