

The World Leader in Model Scenery

WOODLAND SCENICS®

2009

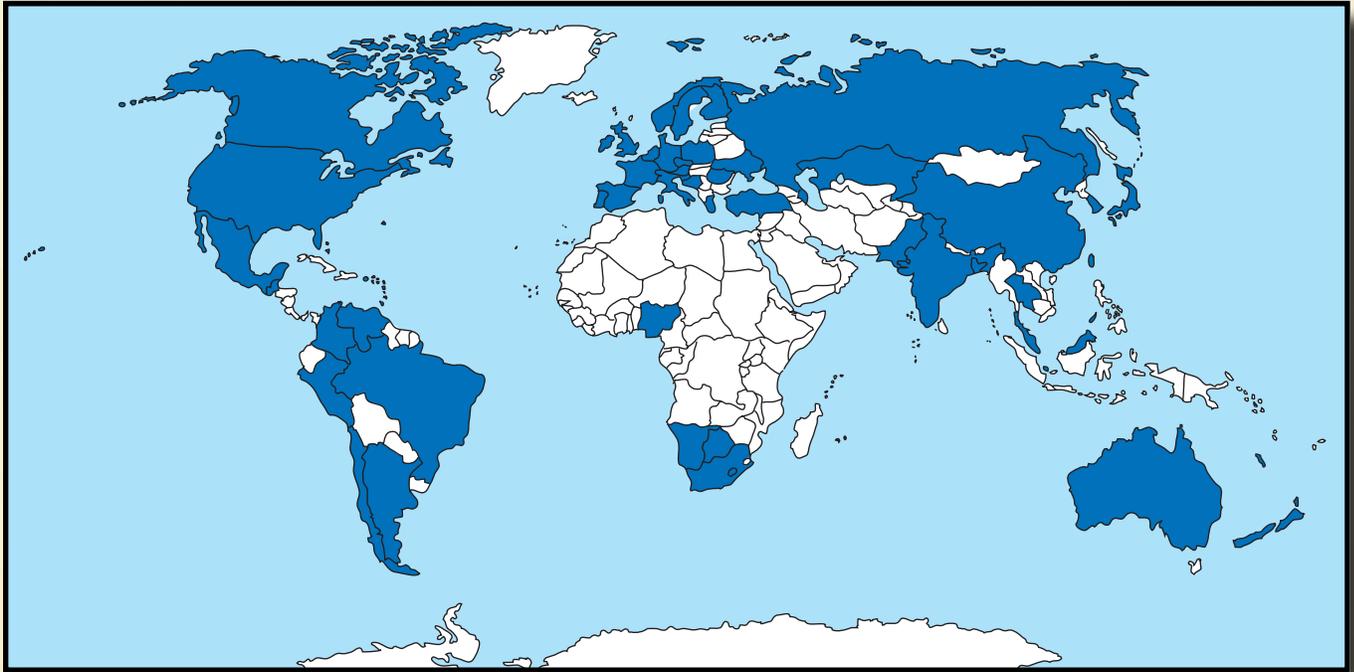

Welcome to Woodland Scenics

...World Leader in Model Scenery Products!

Whether you are a beginner or an advanced craftsman, you can build amazing layouts, dioramas and displays using our beautiful, realistic and easy-to-use modeling products.

You don't have to be an artist. Just follow the simple steps for using the products and you'll be building like a pro in no time. From the layout base to the tree tops, we've got everything you need to build your dream layout!

Woodland Scenics truly is the world leader in model scenery, thanks to our customers around the globe. The dark blue areas on the map indicate locations where we have customers.

Learning Aids 4-5

We've got manuals, videos and kits that help you learn easy techniques for making your best layout ever! You'll learn all you need to build a layout from start to finish!

Layout System 6-11

Heavy chicken wire frames, plywood bases and plaster layouts are a thing of the past. See how our revolutionary lightweight layout foam system helps you create any layout! Build a whole layout or use modular sections that can be added at your convenience.

Roadbed 12-13

Roadbed is track underlayment. Track-Bed helps you create the quietest, smoothest train operation for your layout. Add Ballast for realism and track stability.

Terrain & Landscape 14-29

If you're going to add scenery, why not make it look as realistic as possible! You'll see Woodland Scenics' wide assortment of terrain and scenery materials that create realism with natural colors, textures and dimension. From rock molds, portals, retaining walls and culverts to grasses, bushes, weeds, shrubs and flowering foliage, we've got it all!

Trees 30-38

Enhance your layout with beautiful trees in natural colors! We have an amazing assortment of tree-making products in kit form, or use trees that are "ready-to-plant"!

Ready-To-Go Products 39

You'll love these ready-to-go products: buildings, vehicles, landforms, trees and much more! Just take them home and set them right on your layout!

“...You continue to prove you’re number one in model railroad scenery with a product line that seems to grow overnight. While some companies may probably exceed in their specialties – figures, vehicles and general scenery materials – I can’t think of any company other than yours, that offers them ALL, and in such creative ways. Someone’s doing some heavy-duty thinking out there...”

~Kip Grant, Queensbury, New York

Figures & Accents 40-54

Nothing brings your layout to life more than people, animals and accessories that create everyday scenes! Each set creates an image that makes your layout unforgettable!

Vehicles..... 55-59

Add realism to your layout with our wide selection of “ready-to-go” vehicle scenes and lead-free metal auto kits, ready for your customizing touch.

Buildings 60-85

We’ve got what you need! Purchase ready-to-go buildings that you take out of the package and set right on your layout, or single building kits, building sets and modular parts that let you create your own special structures!

Scene Kits..... 86-88

The best layouts are made when there are lots of little scenes added for effect. Our kits help you create vivid scenes full of life, interest and humor.

Decals & Graphics 89-92

Choose from an exciting variety of easy-to-apply dry transfer decals that include artwork, logos, railroad regalia, numbers and letters. We have a wide selection that will look great on your layout.

Fasteners & Lubricants 93

These special lubricants and quality machine fasteners are great for model railroads, RC cars and planes, small appliances and a multitude of other hobby and household uses!

Layout Kits 94-99

Whether you model in N or HO scale, you can build an amazing layout with our complete kits! You’ll be amazed at the simple assembly and easy techniques that give both beginners and skilled modelers professional results the first time!

Scene-A-Rama 100-101

A line of products designed to help students build amazing school projects, such as dioramas and displays.

PineCar 102

A line of easy-to-assemble kits, weights, decals, tools and accessories for derby participants.

Merchandisers & Assortments 103-114

Attention retailers - these merchandisers and assortments will look great in your store and are the perfect way to display all of your Woodland Scenics’ products!

Index 115

Look for this icon adjacent to specific products. It lets you know that there is a how-to demonstration of that product on our Web site, www.woodlandscenics.com. While you’re there, pick up scenery experts’ secret tips and techniques, print out product instructions, read customer reviews and much, much more!

Build models the easy way using Woodland Scenics® SubTerrain, Terrain and Landscaping Systems. Start with the SubTerrain Lightweight Layout System® which shows you how to build a complete layout in five easy steps without using power tools or complicated calculations. Move on to the basics of terrain modeling: valleys, hills, mountains and other natural features. Create realistic scenery by adding ground covers, trees, water features and other scenery details.

"...I just picked up your Scenery Manual. All the questions I did have, have been answered. Thank you for your help..."

~Jeremy Stilwell, Elk River, Minnesota

SubTerrain: Build a Layout Fast and Easy VHS ST1401 - DVD ST1400

This step-by-step video shows you how to build a model railroad layout with the revolutionary SubTerrain Lightweight Layout System®.
58 minutes

The Clinic VHS R990 - DVD R970

Watch professionals demonstrate terrain and landscaping techniques to a standing-room-only crowd at a National Model Railroad Association convention.
75 minutes

Model Scenery Made Easy VHS R993 - DVD R973

This comprehensive video was produced for every level of modeler. It will show you the easy way to add realism with ground covers, trees, accents, details and water products.
60 minutes

Build a Display for Collectible Houses VHS CH1056 - DVD CH1055

This step-by-step video teaches you how to build a 31 x 44-inch display for collectible houses. The display can be shown year-round and modified to fit any table, buffet, TV, dresser, fireplace opening or mantel.
60 minutes

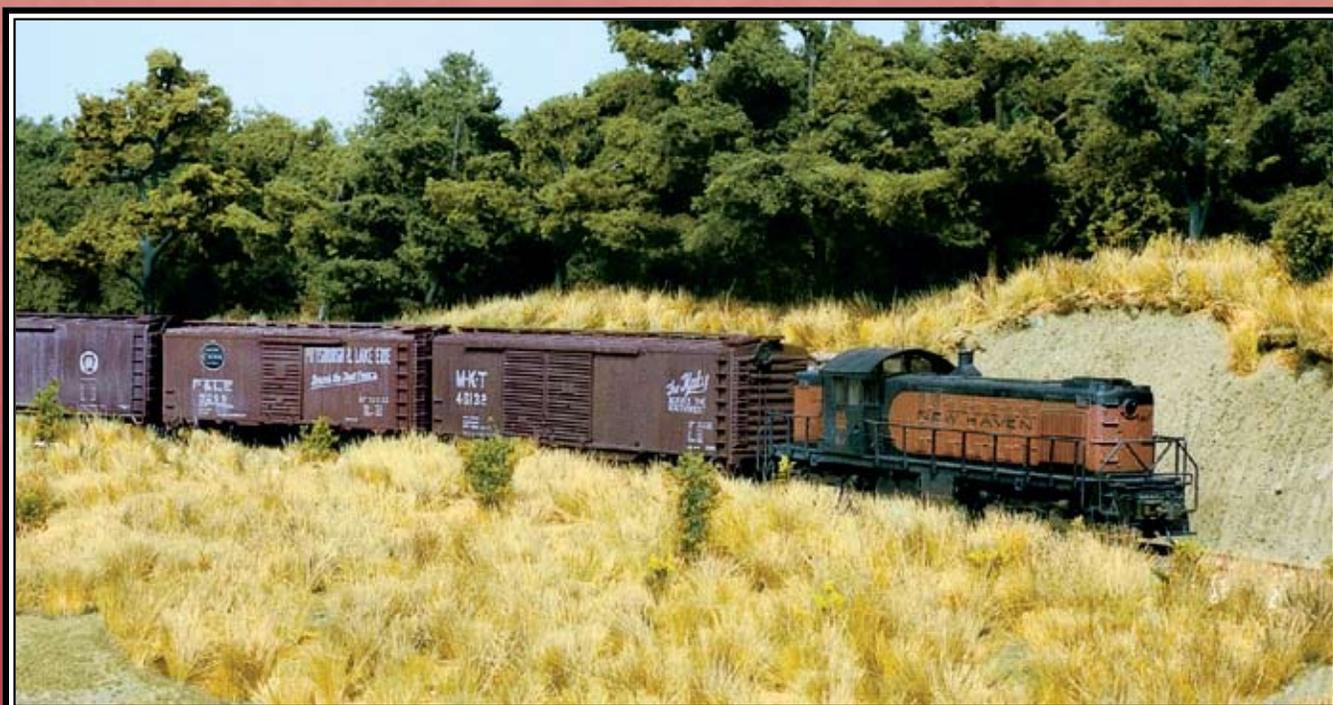

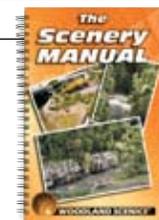

SubTerrain Manual ST1402

This illustrated, how-to manual teaches you how to create the ideal lightweight layout for model trains using five easy steps. Over 200 illustrations and photos.
80 pages

The Scenery Manual C1207

This spiral-bound manual is for any modeler who wants to learn the techniques for creating realistic scenes. The colored illustrations, photos and tech tips show how to use over 600 products.
142 pages

Learning Kits

Our Learning Kits are value-packed tools that teach the beginning model railroader and other hobbyists how to use our Terrain and Landscaping Systems. Learn how to make, color and install rocks, create paved areas, make trees, landscape your layout, put water areas on your layout and add the finishing touches. The kits are available in clamshell packaging for easy product visibility. The package is resealable and can be used for storage.

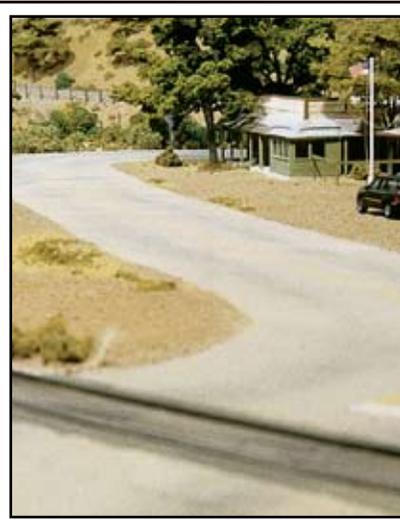

Rock Faces

LK951

Teaches modelers to make and color realistic rock formations. Kit includes a rubber Rock Mold, Lightweight Hydrocal*, Plaster Cloth, Earth Colors Liquid Pigment and applicator.

Yields four to five rocks.

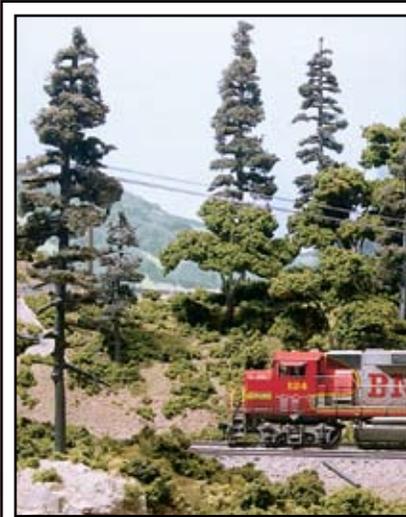

Road System

LK952

Teaches modelers how to easily add roads and other paved areas to any layout. Kit includes Paving Tape with a spreader, Smooth-It, sandpaper, Asphalt Top Coat and applicator.

Covers approx. 3" x 4' road area.

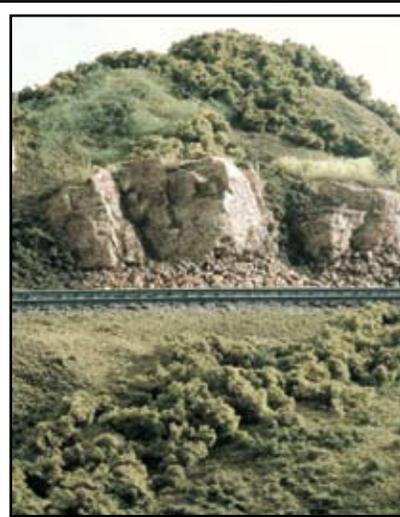

Trees†

LK953

Teaches modelers how easy it is to make and add trees to their layout. Kit includes deciduous and pine Tree Armatures, two colors of Clump-Foliage and Hob-e-Tac® Adhesive.

18 Tree Armatures

Landscaping†

LK954

Teaches modelers to blend and texture our complete line of scenery products. Kit includes seven colors of ground cover, Scenic Cement with a spray head and Earth Undercoat with an applicator.

Covers a 2' x 2' surface area.

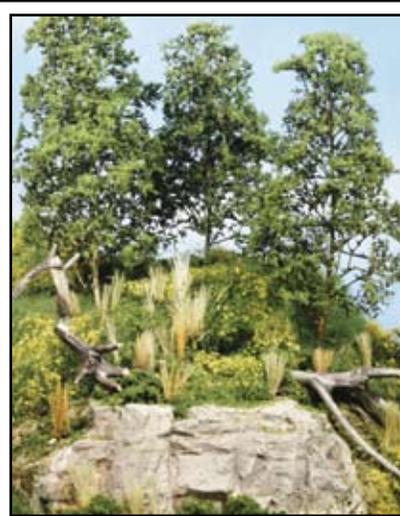

River/Waterfall

LK955

Teaches modelers how to create the illusion of water depth, make a river and a waterfall. Kit includes Realistic Water, Water Effects, Plaster Cloth, Talus, Fine Turf, Scenic Glue, Earth Colors Liquid Pigment and applicator.

Makes 2 1/2" x 9" river and 2 1/2" x 4" waterfall.

Scenery Details†

LK956

Teaches modelers valuable detailing skills. Kit includes Underbrush, Bushes, Turf, Fine-Leaf Foliage, Flowering Foliage, Field Grass, Poly Fiber, Dead Fall and Scenic Glue.

Covers a 2' x 2' area.

WOODLAND SCENICS®
SubTerrain
 LIGHTWEIGHT LAYOUT SYSTEM®

BUILD A LAYOUT IN 5 EASY STEPS

SubTerrain Lightweight Layout System®

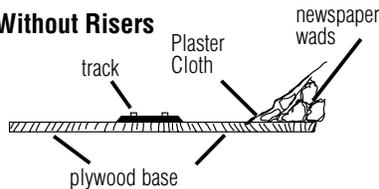

Woodland Scenics® has simplified the process. Build a layout fast and easy using the most innovative foam system for building layouts for model trains. The revolutionary, high-density foam components of the SubTerrain System are extremely lightweight and easy to use. They require no expensive power tools, there is no dusty mess, no complicated calculations and most importantly, no experience is necessary.

- **NO Expensive Power Tools**
- **NO Dusty Mess**
- **NO Complicated Calculations**
- **NO Experience Necessary**

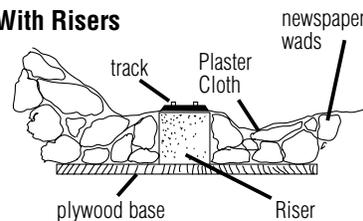

Risers*

High-density foam Risers are used to elevate track. With the surrounding areas now lower, modelers can quickly and easily create creek beds, ravines and other low-lying areas without the mess and inconvenience of expensive power tools.

Without Risers

With Risers

What Size Do I Need?

Risers are available in 1/2", 3/4", 1", 2" and 4" heights. We recommend using at least a 2" Riser to elevate your track. This will provide moderate elevation for gradual relief, hills and creek beds. For a more dramatic landscape, use a 4" Riser to give you maximum elevation for steep relief, rivers and valleys.

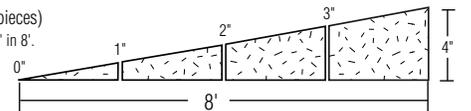

Generally, 1/2", 3/4" and 1" Risers are used in conjunction with Incline Starters.

Incline Sets*

change elevation

4% Incline Sets (4 pieces)

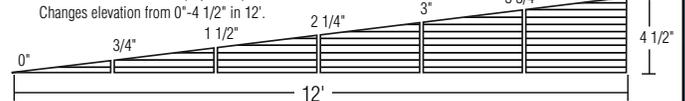

Changes elevation from 0"-4" in 8'.

Sets allow a smooth transition from one height to another.

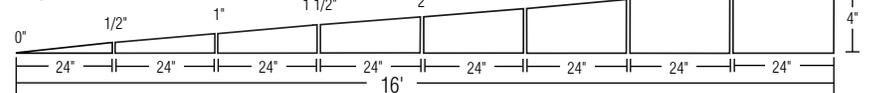

3% Incline Sets (6 pieces)

Changes elevation from 0"-4 1/2" in 12'.

2% Incline Sets (8 pieces)

Changes elevation from 0"-4" in 16'.

Incline Starters*

add versatility

2% Starter

(Package includes 8 identical 2' sections)

3% Starter

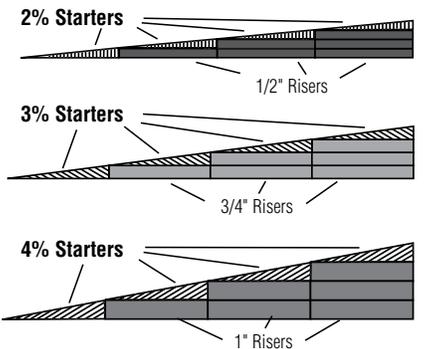

(Package includes 6 identical 2' sections)

4% Starter

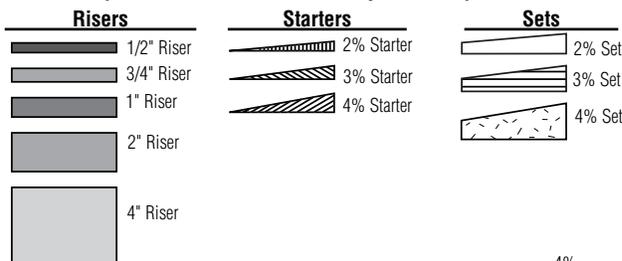

(Package includes 4 identical 2' sections)

Starters can be used with Risers to build smooth inclines.

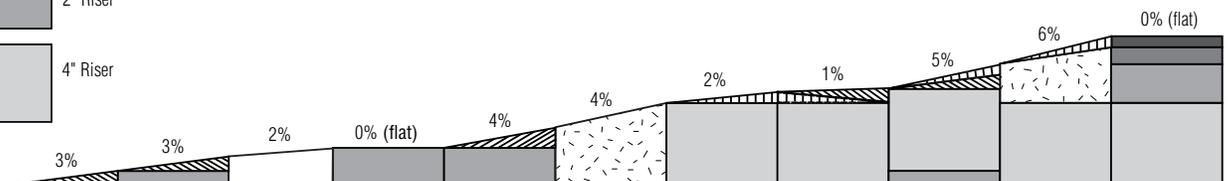

Use Risers and Inclines for Unlimited Possibilities

Optional combinations make any situation possible.

The following illustration shows how using Sets, Starters and Risers in combination give you the flexibility to make the most complex layouts simple.

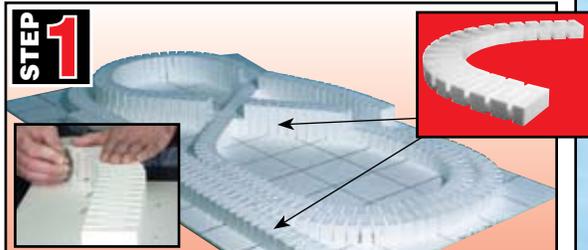

Risers*

Risers are easily flexed to form curves and can be used on a plywood or foam base. Use at least 2" Risers to elevate your track. To install, butt sections tightly, pin in place with Foam Nails and attach with Low Temp Foam Glue or Foam Tack Glue. Each piece is 2 1/2" wide x 24" long.

- 1/2" (4 per pkg.).....ST1406
- 3/4" (4 per pkg.).....ST1414
- 1" (4 per pkg.).....ST1407
- 2" (4 per pkg.).....ST1408
- 4" (2 per pkg.).....ST1409

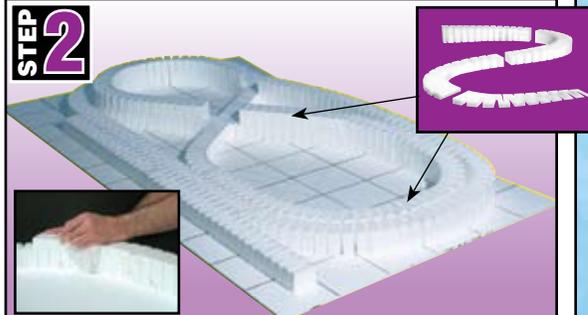

Risers elevate the track from a flat surface so low lying areas can be created.

Incline Sets and Starters*

Inclines are flexible and allow a smooth transition from one height to another. To install, center the Incline on the Riser, butt sections tightly, pin in place and attach with Low Temp Foam Glue or Foam Tack Glue. Starters are identical pieces that can be used alone, or with Sets to start your track on an incline. Each piece is 2 1/2" wide x 24" long.

- 2% SET (8 per set) Elevates track 4" in 16'ST1410
- 3% SET (6 per set) Elevates track 4 1/2" in 12'ST1416
- 4% SET (4 per set) track 4" in 8'ST1411
- 2% STARTER (8 per pkg.) Raises the elevation 1/2"ST1412
- 3% STARTER (6 per pkg.) Raises the elevation 3/4"ST1415
- 4% STARTER (4 per pkg.) Raises the elevation 1"ST1413

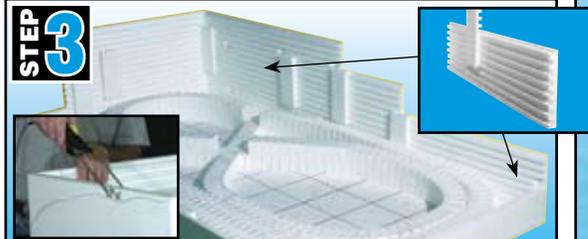

Inclines provide the proper change in elevation so your train runs smoothly.

Profile Boards

Profile Boards create the perimeter of your layout to define the contours. Their special interlocking design makes them easy to join together with the use of matching Connectors. They can be placed end-to-end, or stacked and locked together, then trimmed with a Hot Wire Foam Cutter to create mountain profiles. Each Profile Board is 8" tall x 24" long.

- 2 Boards and 2 Connectors.....ST1419

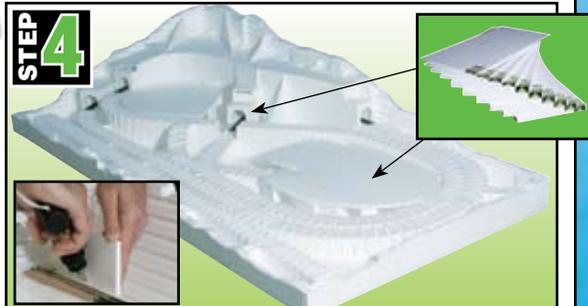

Profile Boards add sides, so terrain contours can be created with the Hot Wire Foam Cutter.

Foam Sheets

Use Foam Sheets to create flat areas for towns. Also use for tunnels, contour supports, plus layout and diorama bases. Build supports with scrap foam to elevate the Foam Sheets and attach with Low Temp Foam Glue or Foam Tack Glue. The 1/4" sheet can be bent into a radius. Each piece is 12" wide x 24" long.

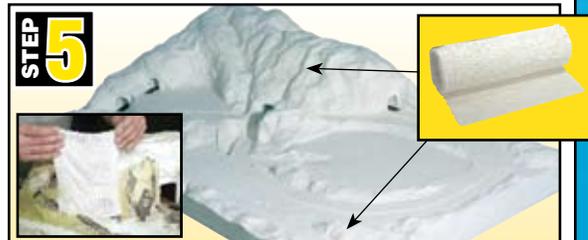

- 1/4" (1 pc.).....ST1422
- 1/2" (1 pc.).....ST1423
- 1" (1 pc.).....ST1424
- 2" (1 pc.).....ST1425
- 3" (1 pc.).....ST1426
- 4" (1 pc.).....ST1427

Foam sheets are used for flat areas, tunnels and layout bases.

Plaster Cloth C1203

A simple, convenient and lightweight way to create a durable terrain shell. Just wad newspaper and stack to form desired terrain areas. Hold the wads in place with masking tape. Dip Plaster Cloth in water and smooth over terrain areas. The Plaster Cloth will dry to a hard shell. 8" wide x 15' long roll, 10 sq. ft.

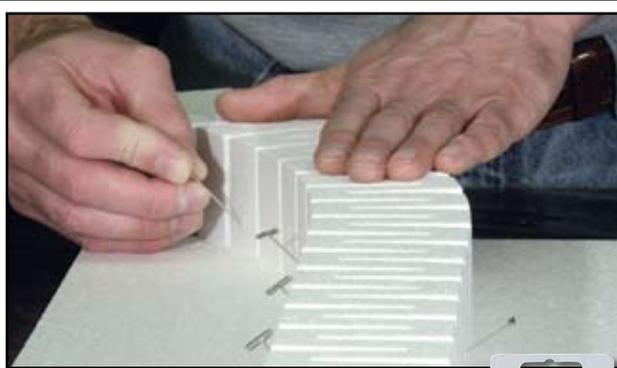

Plaster Cloth covers newspaper wads to create a hard shell for landscaping.

“...I am utterly delighted with the SubTerrain System! I have built the sub roadbed for my 17x24-foot N scale layout in about two days. Since I have no carpentry skill at all, without your system, I would not have started. I waited 20 years to start this darned thing, and wanted to thank you for making a product that made it possible...!”

~Lou Judice, Hampton, New Jersey

Foam Pencils[‡] ST1431

Foam Pencils have a special lead designed to draw on foam without causing damage. The colors will not bleed through paint or other coverings.
2 red, 2 black

Foam Nails[‡] ST1432

Use Foam Nails to temporarily pin Track-Bed, track, foam or other products to your layout. 2"- 75/pkg.

Foam Knife ST1433

The Foam Knife comes with a 2-inch replaceable blade that is ideal for cutting thick pieces of foam.
1 knife/pkg.

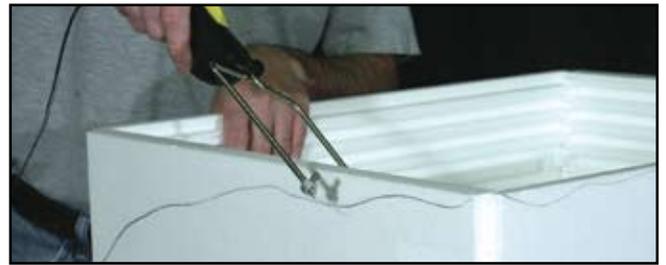

Foam Knife Blades ST1434

Replacement blades for Foam Knife.
4 blades/pkg.

Foam Tack Glue[‡] ST1444

This specially formulated glue is high tack and effective on most materials, especially foam. Use as a contact cement whenever bonding two large surfaces.
12 fl. oz.

Hot Wire Foam Cutter ST1435

The Hot Wire Foam Cutter has adjustable collars, for clean, accurate cuts. The cutting path is 4 1/2" w x 6" d. Woodland Scenics recommends using this cutter only on SubTerrain white foam. Only use the special Nichrome replacement wire. Add versatility to your Foam Cutter with the Bow & Guide.

Input: 120 VAC
Output: 9 VAC
1300mA

International Hot Wire Foam Cutters

- 230V Hot Wire Foam Cutter**..... ST14401
(Transformer/Plug Europe)
- 230V Hot Wire Foam Cutter**..... ST14402
(Transformer/Plug UK)
- 240V Hot Wire Foam Cutter**..... ST14403
(Transformer/Plug Australia/New Zealand)

Hot Wire Foam Cutter Replacement Wire ST1436

Special Nichrome wire retains an even temperature needed to cut our foam products.
4 feet (wire gauge is .010)

Foam Cutter Bow & Guide ST1437

The Bow attachment adds versatility to the Hot Wire Foam Cutter. Attach the Guide for precise angled cuts (handle not included).

[‡]Conforms to Health Requirements of ASTM D4236.

Low Temp Foam Glue Gun ST1445

Low Temp Foam Glue Sticks[†] ST1446

This low temp glue will not damage foam and bonds instantly. Load the glue sticks in the barrel, then use the trigger to dispense.

10 sticks/pkg. (10" long)

Foam Putty[†] ST1447

Foam putty is non-shrinking, lightweight filling material that has the same characteristics as foam, and is used to fill cracks and gaps.

16 oz. vol./28 cu. in.

Flex Paste[†] C1205

This flexible, non-cracking modeling paste can be used to create a hard surface or as a filler or primer on foam. It can also be used as a road base or sealer under model water. Excellent for modeling heavy snow drifts. Apply Flex Paste and sprinkle Soft Flake Snow on top.

16 fl. oz.

Road System

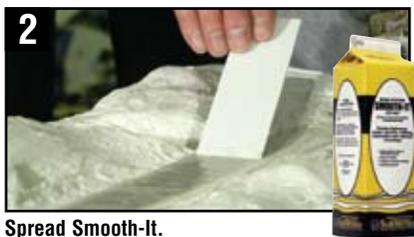

Use to make any asphalt or concrete surface, such as roads, streets, sidewalks or parking lots. Accomplish in three easy steps. Refer to page 5 for the Road System Learning Kit (LK952).

1 Apply Paving Tape.

Paving Tape[†] ST1455

This adhesive-backed foam tape is used to create a form for making streets, roads, sidewalks and parking lots. A 5 1/4" wide smoothing spreader is included. Thirty feet of tape makes a road approximately 15 feet long. 1/4" x 30'

2 Spread Smooth-It.

Smooth-It[†] ST1452

This plaster material is used to fill the forms created from the Paving Tape. Can also be used to fill rough areas on streets and roads.

1 qt./55 cu. in.

3 Paint with Top Coat.

Top Coat Asphalt[†] ST1453

Top Coat Concrete[†] ST1454

Use full-strength or dilute with water. For blacktop surfaces use Asphalt Top Coat. Color highways, streets and sidewalks with Concrete Top Coat.

4 fl. oz.

[†]Conforms to Health Requirements of ASTM D4236.

MOD-U-RAIL[®] SYSTEM

Build the Layout of your Dreams...One Module at a Time

The Mod-U-Rail[®] System gives you the freedom and convenience to build the layout of your dreams: one module at a time! This system consists of module kits which can be bolted together to create a layout of any size, in most any scale. They can also be used to add on to an existing layout. Whether you are creating a layout for your home, starting a module club or building a layout with friends, you can build a module in a couple of evenings. Everything is included in the kit, except track. Visit our Web site to learn how you can design your own layout using our easy, interactive track-planning patterns and techniques.

- All materials needed to build these modules, including landscaping
- Works with all track brands
- No expensive power tools, complicated calculations or dusty mess
- Design your own track plan or use a plan included in kit
- Easy bolt-together system
- Save over 30% on items purchased separately

FREE Module Kit - Purchase any five Straight and Corner Kits to receive a FREE Straight Module Kit (ST4801). Complete details on box.

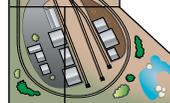

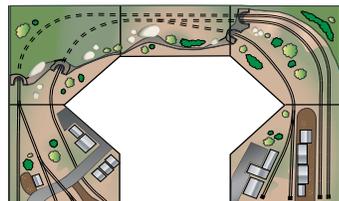

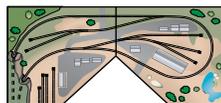

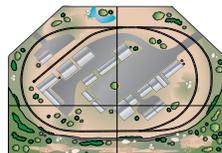

THESE TRACK PLANS INCLUDED IN KITS

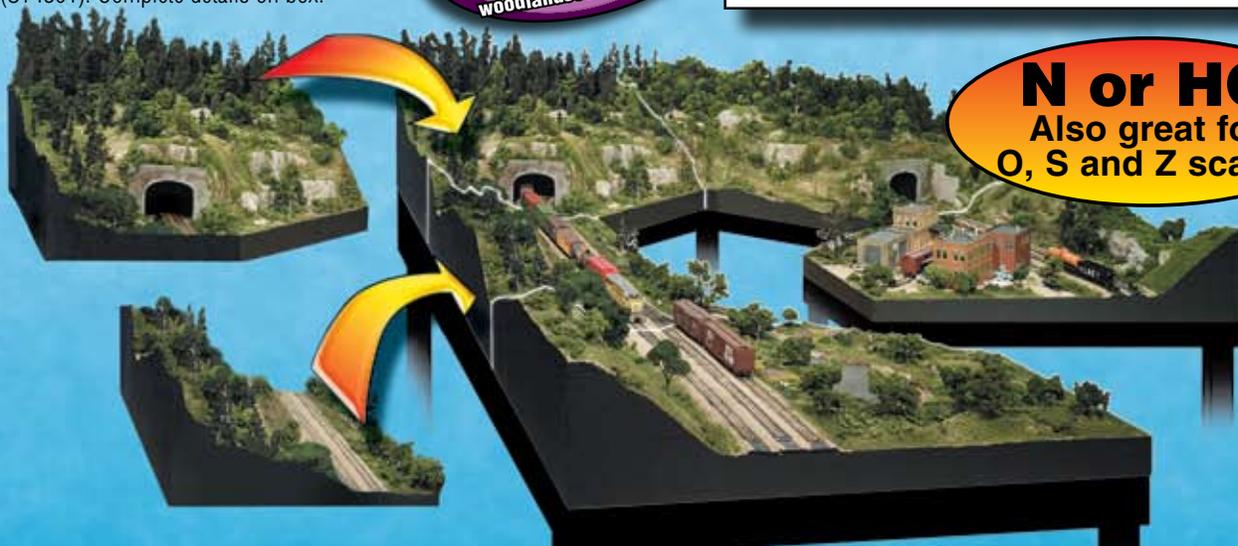

N SCALE PLANS

HO SCALE PLANS

N or HO
Also great for
O, S and Z scales

Straight Module Kit**

- ST4801
- 18 x 36-inch module

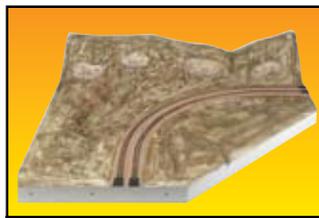

*Track not included.

Corner Module Kit**

- ST4802
- 36 x 36-inch module
 - Can also be built as a square

1. Build the base

2. Create terrain with Plaster Cloth

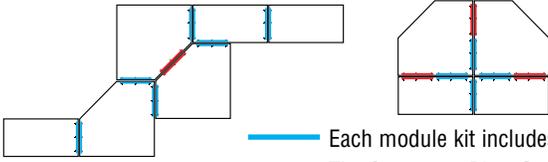

3. Finish with landscaping

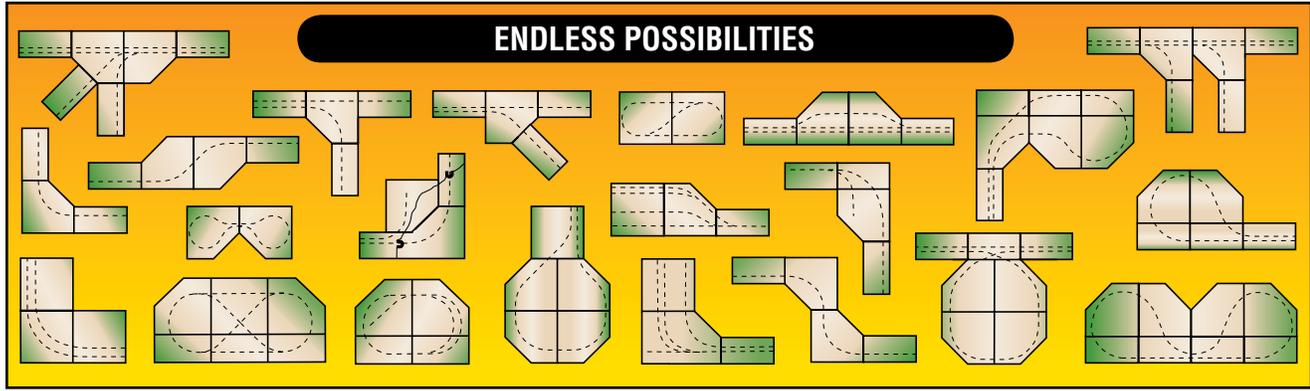

4. Bolt modules together

Connector Plate Set[†] ST4780

We have developed the Connector Plate Set to expand the possibilities of Mod-U-Rail layouts and make achieving that dream layout much easier! You are not limited to bolting the modules together end-to-end. Now, you can bolt them together side-by-side.

— Each module kit includes two connector plates with hardware for bolting end-to-end.
 — The Connector Plate Set gives you additional connectors for unlimited possibilities in your layout design.

Mod-U-Rail Kit Stands[†]

These stands are the perfect benchwork for your Mod-U-Rail System. Each module has its own stand. The stands are ready to assemble with all the necessary hardware. Each stand is 35 1/2" tall with pre-drilled holes and adjustable feet, which allow you to level the stand. It also includes bolts to join the stands together in numerous configurations.

Once built, you will have a sturdy display for your modules which can be painted for a finished look!

Available on our Web site www.woodlandscenics.com

Straight Module Kit Stand
 ST4790
 18" x 36" x 35 1/2" - 22 lbs.

Corner Module Kit Stand
 ST4791
 36" x 36" x 35 1/2" - 27 lbs.

Square Module Kit Stand
 ST4792
 36" x 36" x 35 1/2" - 26 lbs.

Mod-U-Rail DVD ST4799

View this introductory DVD on our Web site, or for a copy send us your name and address along with \$5.00 for shipping and handling.

[†]Conforms to Health Requirements of ASTM D4236.

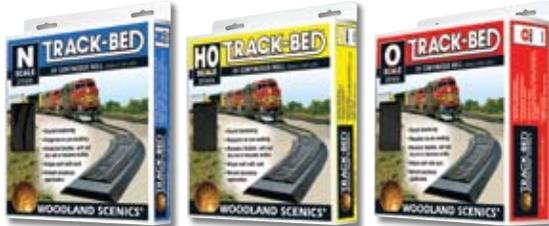

Track-Bed[†]

This roadbed product provides a quiet, smooth train operation and absorbs irregularities on your layout. It gives you a high-quality, economical alternative to other roadbeds. Track-Bed requires no pre-soaking like cork, remains flexible and won't dry out or become brittle. It aligns well with cork on any layout and is available in Rolls, Strips, Sheets and Super Sheets. For an almost seamless application, use the 24-foot Rolls. All Track-Bed comes in N, HO and O scale.

Rolls

Track-Bed Rolls offer a smooth, almost seamless application.

- N Scale** (3mm x 1 1/4" x 24' - Seamless Roll) ST1475
- HO Scale** (5mm x 1 3/4" x 24' - Seamless Roll) ST1474
- O Scale** (5mm x 2 3/4" x 24' - Seamless Roll) ST1476

Strips

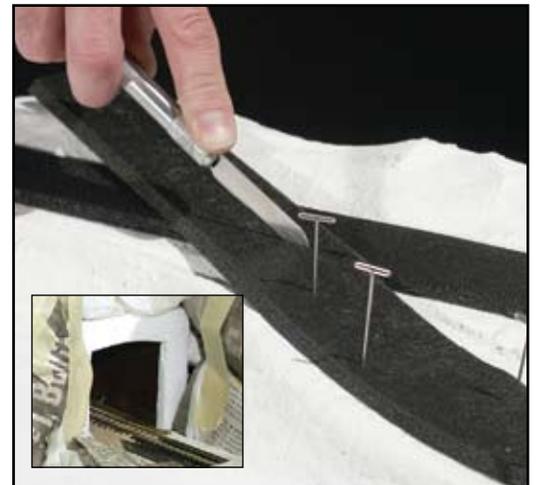

Use Track-Bed Strips for easy application. They are especially good for tight areas.

Standard Pack

- N Scale** (3mm x 1 1/4" x 24" - 12 pieces per pkg.) ST1472
- HO Scale** (5mm x 1 3/4" x 24" - 12 pieces per pkg.) ST1471
- O Scale** (5mm x 2 3/4" x 24" - 12 pieces per pkg.) ST1473

Bulk Pack

- N Scale** (3mm x 1 1/4" x 24" - 36 pieces per pkg.) ST1462
- HO Scale** (5mm x 1 3/4" x 24" - 36 pieces per pkg.) ST1461
- O Scale** (5mm x 2 3/4" x 24" - 36 pieces per pkg.) ST1463

Sheets

Use Track-Bed Sheets for railyards or sidings.

- N Scale** (3mm x 3 1/4" x 24" - 6 pieces per pkg.) ST1460
- HO/O Scale** (5mm x 5" x 24" - 6 pieces per pkg.) ST1470

Super Sheets

Track-Bed Super Sheets are great for railyards or sidings.

- N Scale** (3mm x 12" x 24" - 1 each) ST1478
- HO/O Scale** (5mm x 12" x 24" - 1 each) ST1477

Ballast

Ballast is the rock used to hold real railroad ties in place. Our Ballast is great for modeling this effect and making gravel roads on your layout. It is available in several colors and sizes. Mix and match for a realistic effect. The product is lightweight and easy to use. Attach with Scenic Cement. *Bags 18 cu. in. (Gray Blend 45 cu. in.)/Shaker 50 cu. in.*

Terrain System

Woodland Scenics® terrain products are a complete system for beginners and craftsman modelers. The Terrain System has all the products needed to make earth contour models that reflect any type of terrain. Each product has easy-to-follow instructions which make ultimate scenic realism both simple and convenient.

Plaster Cloth C1203

There is no easier, more convenient or lightweight way to create a durable shell or terrain base. This plaster-coated cloth is designed for terrain modeling. It is used to form a hard shell that easily accepts coloring, plaster castings and landscape materials. It is also used to fill in terrain gaps and sculpt around terrain features.

8" wide x 15' long roll,
10 sq. ft.

Flex Paste C1205

This flexible, non-cracking modeling paste can be used to create a hard surface or as a filler or primer on foam. It can also be used as a road base or sealer under model water. Excellent for modeling heavy snow drifts. Apply Flex Paste and sprinkle Soft Flake Snow on top.

16 fl. oz.

Mold-A-Scene Plaster C1202

This plaster material can be shaped like modeling clay, but sets like plaster. It can also be used as a texturizing compound. Its longer setting time allows a modeler to add terrain contours to new or existing scenery. It is excellent for dioramas, layouts and models, as well as volcanoes and other school projects. Dries overnight.

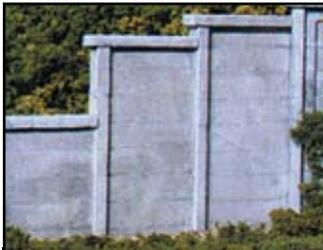

1/2 gal./104 cu. in.

Retaining Walls*

Retaining Walls are plaster castings that are easy to color. They can be used alone, installed adjacent to each other to create straight or curved walls, or used with Tunnel Portals. They can be cut to varying heights to create stepped winged walls.

*Scale lengths may vary depending on installation.

Concrete

C1258 - HO Scale (3 each)
4 15/16" x 2 11/16"

C1158 - N Scale (6 each)
2 11/16" x 1 5/16" (105' scale length)

Cut Stone

C1259 - HO Scale (3 each)
5 3/8" x 3 3/16"

C1159 - N Scale (6 each)
2 11/16" x 1 11/16" (140' scale length)

Timber

C1260 - HO Scale (3 each)
5 1/16" x 2 7/16"

C1160 - N Scale (6 each)
2 11/16" x 1 1/4" (100' scale length)

Random Stone

C1261 - HO Scale (3 each)
5" x 3"

C1161 - N Scale (6 each)
2 3/4" x 1 11/16" (132' scale length)

Culverts

Where there are embankments, there is water run-off to control. Our Culverts are extremely realistic plaster castings that are easy to color. No serious railroad scene would be complete without a detailed Culvert or two to add realism.

Concrete

C1262 - HO Scale (2 each)
C1162 - N Scale (2 each)

Masonry Arch

C1263 - HO Scale (2 each)
C1163 - N Scale (2 each)

Terrain & Landscape

Lightweight Hydrocal C1201

Bulk C1201-B

Lightweight Hydrocal has been specially formulated for terrain model builders, and is half the weight of Hydrocal. Mix according to instructions and pour into rock molds to create various rock formations. Also great for creating hard shell terrain, and for filling in around rocks and other castings. Available in two sizes.

1/2 gal./104 cu. in.

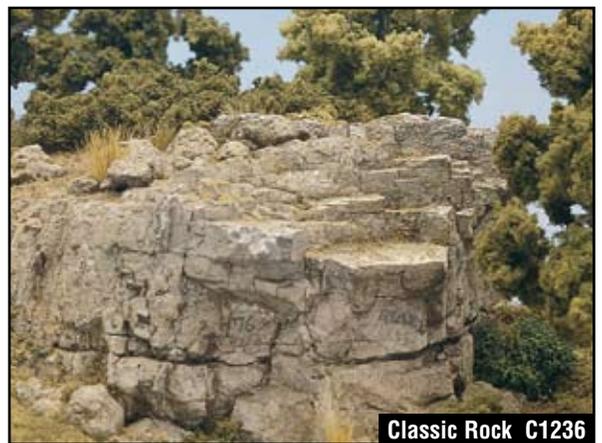

5 gal./1344 cu. in.

Refer to page 5 for the Rock Faces Learning Kit (LK951).

Rock Molds

Woodland Scenics® Rock Molds are durable, flexible, reusable and well detailed. Use Lightweight Hydrocal to cast small boulders, rock outcroppings, rocks for fields and creeks or entire rock faces. Color with Earth Colors Liquid Pigment.

Tunnel Liner Form C1250

This innovative mold is ideal for casting realistic rock walls and ceilings for scale tunnels on your pike. It is designed to form half of either a single or double liner section.

HO scale

1. Use a spatula to fill the Tunnel Liner Form with Lightweight Hydrocal. When dry, remove from mold.

2. Join two half sections on top with a strip of wet Plaster Cloth to form a hinge.

3. Join completed units on one side for a longer tunnel. The unattached side can be raised for track maintenance.

Latex Rubber C1204

Latex Rubber works great for making your own hopper loads, rocks or other molds. This ready-to-use Latex Rubber is formulated to be thin enough to seek detail and thick enough to be durable. Create long-lasting molds with just a few coats.

16 fl. oz.

1. Brush three to six layers of Latex Rubber on rocks, hopper loads or other items.

2. Put gauze between each layer of Latex Rubber.

3. Allow each layer to dry between applications.

4. When completely dry, carefully pull off the mold.

5. Make castings with Lightweight Hydrocal.

6. Allow Hydrocal to dry thoroughly before removing from mold.

Talus (Rock Debris)

Everywhere there is a rock face, an outcropping of rocks or a road cut, there is rock debris of various sizes and shades. Talus is a lightweight material used for modeling rock debris. Just sprinkle on some Talus and secure with a 50/50 mixture of Scenic Glue and water. Intermix grades and blend shades for the most realism. Modify Talus colors with Earth Colors Liquid Pigment, if desired.

Landscaping System

Landscaping adds color, texture and realism to terrain contours. The Landscaping System includes all the products needed for adding ground cover, plants and trees to a layout. Produce realistic scenery whether you are a beginner or advanced modeler. The products are formulated to mix and blend for ultimate realism. Each item is easy to use and virtually foolproof.

Terrain & Landscape

ADHESIVES AND ACCESSORIES

Scenic Glue S190

This specially-formulated, high-tack, non-odorous adhesive is for applying landscape materials. Dries clear with a matte finish. Does not crack or turn yellow.
8 fl. oz.

Hob-e-Tac® Adhesive S195

This multi-purpose, water-soluble adhesive stays tacky. Use for making trees and attaching Field Grass to your layout. Apply Hob-e-Tac Adhesive, wait until clear and tacky, then attach foliage products.
2 fl. oz.

Scenic Cement S191

Scenic Cement now has a smooth, flowing application that reduces spray head clogging, foaming and bubbles. There is no need to use "wet water," and the new formula penetrates easier and faster. It actually wraps around the product and permeates instantly for maximum coverage. It is especially great for sealing Forest Canopy material and attaching Fine, Blended and Coarse Turfs, Static Grass Flock, Poly Fiber, Ballast, Flowering Foliage and other foliage. Use with Scenic Sprayer (S192).
16 fl. oz.

Scenic Sprayer S192

The Scenic Sprayer comes with a siphon tube and spray head that fits the Scenic Cement bottle. The nozzle adjusts from a fine mist to a steady stream. Measurement markings in ounces and milliliters are on the side. Use for Scenic Cement, Earth Colors Liquid Pigment and other liquids.
Holds 8 ounces.

Canister Shaker S194

This Canister Shaker is perfect for storage of all landscaping products. It comes with a dual-purpose cap: one side is a shaker and the other pours large amounts. Includes a blank identification label.
Holds 32 ounces.

Canister Shaker Set S199

Organize and store your landscaping products with a set of Canister Shakers and their cardboard container, which can be hung on pegboard or set on your workbench. They come with six blank labels to identify the product in the canisters.
Each Shaker holds 32 ounces.

Fine Turf

Fine Turf adds texture and highlights to trees and scenery. It is available in six realistic colors, which model fresh, scorched and dying grasses, weeds and dirt roads. Attach with Scenic Cement.

Landscaping Steps

Refer to page 5 for the Landscaping Learning Kit (LK954).

1. Paint layout (or model) with Earth Colors and spray with Scenic Cement.

2. Sprinkle on a base layer of Blended Turf.

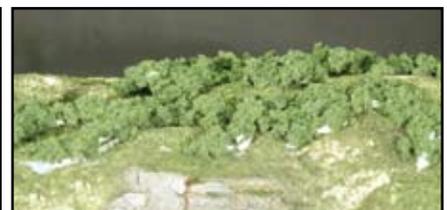

3. Lightly spray with Scenic Cement to fix in place.

4. Add more color and texture with Fine and Coarse Turf in various colors and sizes.

5. Use Scenic Glue to attach Underbrush, Bushes, Forest Canopy, Clump-Foliage and Foliage Clusters.

6. Allow to dry thoroughly and spray again with Scenic Cement to fix in place.

Lichen

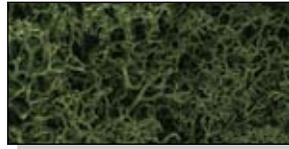

A longtime favorite of hobbyists, this natural product, with its unique texture, blends easily with other foliage creating realistic scenery. Lichen models bushes and ground cover, or can be used as tree foliage. It is available in five solid colors and three mixes, designed to blend with our other landscaping products. Use Lichen for quick and economical tree masses on your layout. Attach to Tree Armatures with Hob-e-Tac® Adhesive. Use Scenic Glue to attach to layout. *Small Bag 82 cu. in. FG174

1. Cut Field Grass.

2. Dip into Hob-e-Tac Adhesive or Scenic Glue.

3. Place on layout.

4. Dry thoroughly.

Foliage

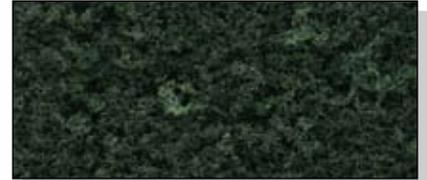

Foliage is excellent for making trees, vines, weeds, bushes or any low growth. Simply stretch the sheet of Foliage for a thin, lacy application. Attach Foliage with Scenic Cement. Create quick and economical tree masses on your layout. Stretch Foliage to desired density, then roll into a loose ball. Stretch the ball into a conical shape for variation. Attach to hillsides with Scenic Glue. Foliage is available in four colors and two fall blends. *60 sq. in.*

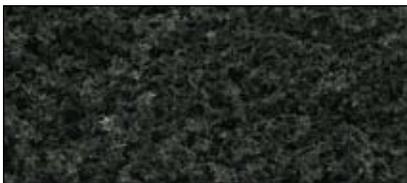

Light Green F51

Medium Green F52

Dark Green F53

Conifer Green F54

Early Fall F55

Late Fall F56

1. Stretch and tear Foliage until thin and lacy.

2. Attach to Tree Armatures.

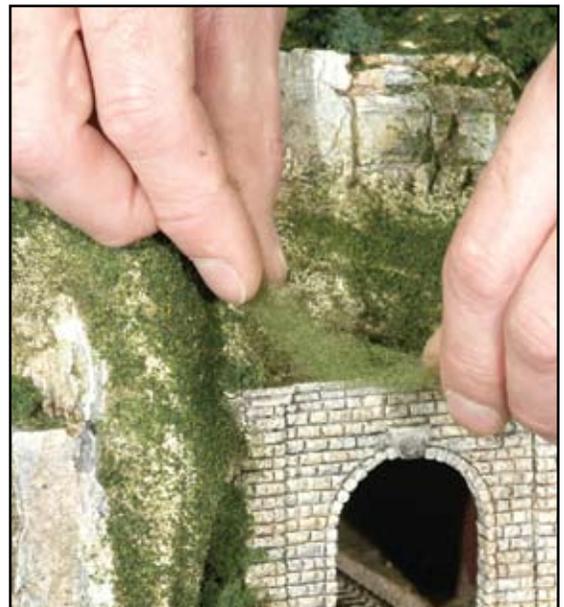

3. Attach to Tunnel Portals, buildings and bridges.

Poly Fiber FP178

Poly Fiber is synthetic fiber used to create vines, undergrowth and other rambling vegetation. Apply it on the sides of buildings, Tunnel Portals, light poles, billboards and along fence rows, or other places you see vines grow. Use Poly Fiber after you have added ground covers and set buildings on your layout. Great for quick and economical tree masses on your layout. Attach to layout with Scenic Cement. *16 gr. (.56 oz.)*

Green

Flowering Foliage[‡]

Use Flowering Foliage to model flowers along railroad tracks, in fields, on hills or around buildings to add color. Place on the layout and attach with Scenic Cement.
Covers 100 sq. in.

Yellow F176

Purple F177

Fruit and Flowers

Sprinkle Fruit on small trees to model apple and orange trees in an orchard. Flowers are sprinkled on small bushes, shrubs, vines and fields to model flowering plants. Spray with Scenic Cement to affix to foliage.
1 1/2 cu. in. per pkg.

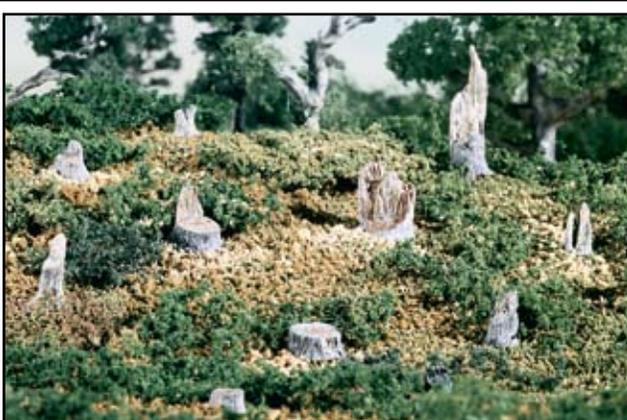

Fruit T47 (Apples and Oranges)

Flowers[‡] T48 (4 colors: red, yellow, white and orange)

Dead Fall S30

Dead Fall is a natural, realistic product, which has the look of aged wood and is used to model fallen or standing dead trees and stumps. This assortment of wooden pieces can be used on any scale layout. Pieces feature gnarled branches, knots and some are smooth, with signs of weathering. Apply with Scenic Glue.
.5 oz.

Stumps

Add realistic detail to wooded or deforested areas on your layout with Cut or Broken Stumps. Clean parts, paint and adhere to layout with Scenic Glue.
14 pcs. per package

Cut Stumps S31

Broken Stumps S32

Soft Flake Snow[‡] SN140

This product is used on model railroads, dioramas, military models or where collectible buildings are displayed. For a dusting of snow, sprinkle Snow and attach with Scenic Cement. For heavy drifts, apply Flex Paste (C1205, page 9) to your layout and sprinkle Snow on top.
50 cu. in.

Realistic Water C1211 **NEW & IMPROVED**

This new, no-mix formula gives you beautiful, realistic water areas, such as lakes, ponds, rivers and more! The surface dries hard and clear, with minimal shrinkage, and the formula is water-soluble and non-toxic. Realistic Water will not crack and is self-healing. Pour no more than 1/8" deep at a time and allow to dry thoroughly between layers (about 24 hours). The contents cover approximately 17" diameter area when poured to the recommended depth of 1/8". 16 fl. oz. (434 ml).

Refer to page 5 for the River/Waterfall Learning Kit (LK955).

Water Effects C1212

Water Effects is a heavy-bodied product, which is moldable and will hold its shape. Create pond ripples, waterfalls or rapidly moving water. It dries clear in about 24 hours. 8 fl. oz.

Refer to page 5 for the River/Waterfall Learning Kit (LK955).

1. Apply Water Effects onto a non-stick surface.

2. Shape and texture with a toothpick to create desired effect.

3. When dry, peel off and place on layout.

4. Attach with Water Effects.

"...We use Realistic Water in my Model Railroad University classes. We at MRU think this is a wonderful addition to the leading scenery product line in the model railroading world. Please keep on developing new products that look good and work for the non-artist in all of us...!"

~Miles Hale, MMR, Kansas City, MO

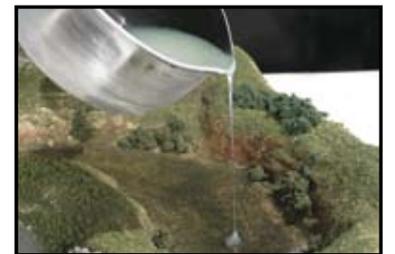

E-Z Water C1206

E-Z Water is a heat-activated product used for modeling various bodies of water. It dries quickly, but can be re-heated with a heat gun to remove scratches or to mold various accents, such as ripples, waves and rapids. Recommended for small areas.

28 cu. in.

1. Melt E-Z Water pellets over medium heat.

2. Pour into prepared areas.

Ready Landforms

These Ready Landforms are preformed and durable. Because they are already landscaped, they easily blend with any layout. Just set and go! Their portability makes them ideal for gaming. Ready Landforms also stack for space-saving storage. Tunnels and Rocky Ridges are the perfect complements to ReadyGrass Vinyl Mats.

Tunnels

There are four ready-to-set tunnels: one straight and one curved, in both N and HO scale. All tunnels have molded-in portals at each end.

Rocky Ridges

There are two sizes: small and large. They can be placed near a road as a roadcut or next to a track as a rocky embankment. Great for gaming.

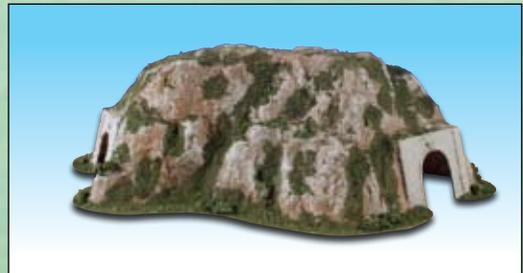

HO Straight Tunnel C1310
 (26" L x 16 1/2" W x 8" H, portal opening 2 3/4" W x 3 5/8" H)

N Straight Tunnel C1315
 (14 1/2" L x 9 1/2" W x 5" H,
 portal opening 1 3/8" W x 1 3/4" H)

HO Curved Tunnel C1311
 (25 3/4" L x 15 1/2" W x 8" H, portal opening 2 3/4" W x 3 5/8" H)

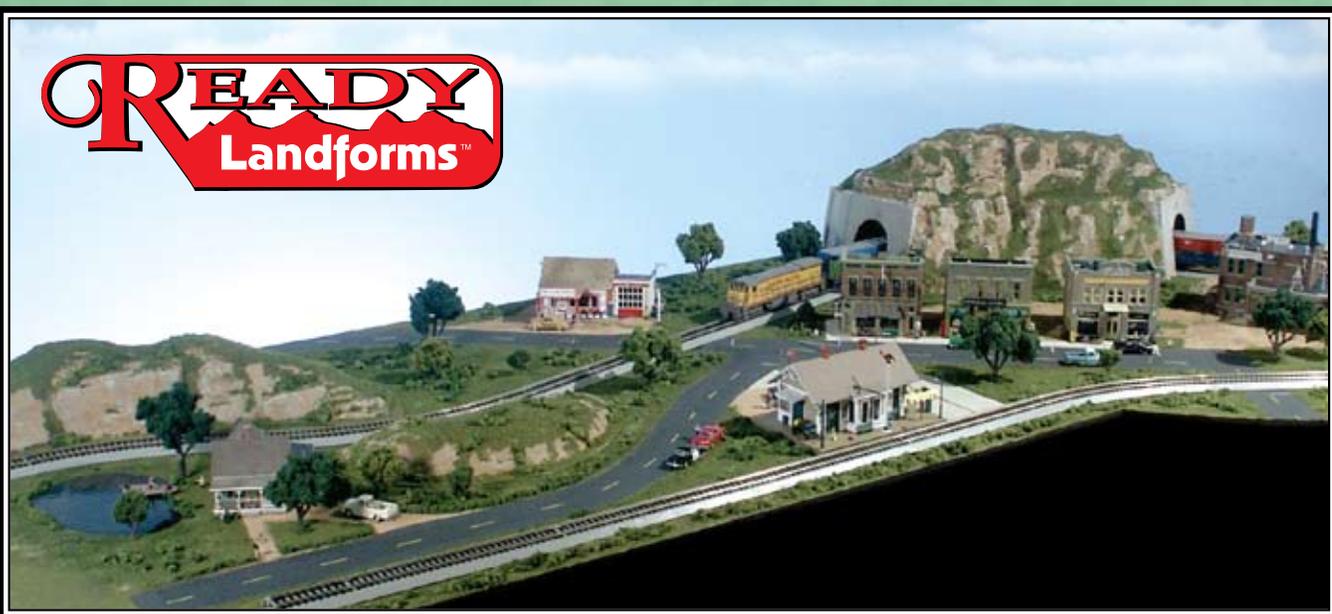

N Curved Tunnel C1316
 (16 1/2" L x 10" W x 5" H,
 portal opening 1 3/8" W x 1 3/4" H)

Rocky Ridge Large C1320 (25" L x 9" W x 3 1/2" H)

Rocky Ridge Small C1321
 (14 1/2" L x 6" W x 1 3/4" H)

READY GRASS[®]

VINYL MAT

- **Moldable and retains its shape...**for making hills
- **Removable Turf...**for making roads and water areas
- **Durable/tear resistant...**use again and again
- **Non-shedding/non-staining...**no mess
- **Colorfast...**no fading

ReadyGrass Vinyl Mats are high-quality grass mats that are great to use as is or mounted to any flat surface. They can be used for model railroading, school projects, arts and crafts, gaming, military dioramas, architectural models, collectible houses, slot cars and much more. Four fade-resistant colors available in two Roll sizes – Large (50 x 100-inch) and Small (33 x 50-inch) – and Project Sheets (12 1/2 x 14 1/8-inch).

ReadyGrass® Vinyl Mat Accessories

Road Kit[†] RG5151

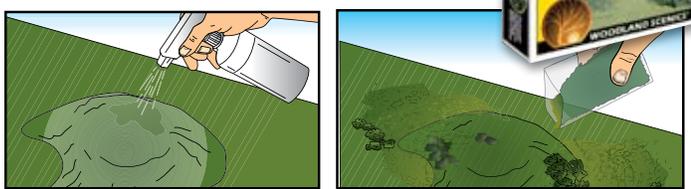

This kit includes everything needed to create and detail roads, sidewalks and parking areas.

1. Wet area for road/parking areas. Remove turf with Road Scraper, then paint.
2. Detail road/parking areas with Striping Pin.

Landscape Kit[†] RG5152

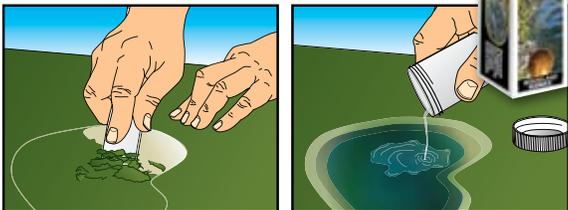

This kit includes everything needed (various foliage, bushes, shrubs and adhesive) to enhance a 4 x 8-foot area. Add paths, different colors of turf and high-lights. Refer to page 22 for Landscaping Steps.

1. Spray adhesive on area to be landscaped.
2. Add bushes and shrubs. Blend and add low ground cover.

Water Kit[†] RG5153

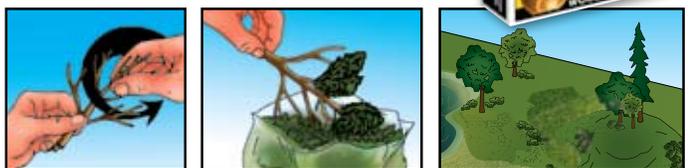

This kit includes everything needed to create streams, rivers, ponds and lakes. Covers a 32 sq. in. area.

1. Wet water area. Remove turf with Scraper, then paint.
2. Pour or brush on Realistic Water.

Tree Kit[†] RG5154

This kit includes everything needed to make 27 deciduous and pine trees for a 4 x 8-foot area. Sizes range from 2 1/2 to 6-inches.

1. Twist armature into tree shape.
2. Apply adhesive and dip in foliage.
3. Plant trees on layout.

Mat Adhesive[†] RG5161

Use Mat Adhesive for permanently bonding mats to any clean, smooth surface. Great for mounting puzzles and posters to art board. 7 fl. oz.

Apply Mat Adhesive to back of grass mat. Press onto surface.

Heat Tool RG5162

Use with ReadyGrass Vinyl Mats to form hills and mounds.

- International Heat Tools**
- 230V Heat Tool**..... RG5163
(Transformer/Plug Europe)
 - 240V Heat Tool**..... RG5164
(Transformer/Plug UK)
 - 230V or 240V Heat Tool**.. RG5165
(Transformer/Plug Australia/New Zealand)

Form hills over newspaper wads with Heat Tool.

[†]Conforms to Health Requirements of ASTM D4236.

Ready Made Realistic Trees*

These trees lend authenticity to any layout or diorama. Their natural colors and realistic textures blend with other Woodland Scenics® landscaping products. Plant trees in clusters and intermix foliage colors. For more detail, spray foliage with Scenic Cement and high-light with Fine Turf. Attach to layout with Hob-e-Tac® Adhesive or Scenic Glue. Come with detachable bases.

Premium Trees™

These Premium Trees are hand-crafted works of art that replicate real trees. The design of the branch and leaf structure easily identifies the tree type. The tree trunks are textured to look like real bark. Each tree has a planting pin. There are three different package sizes with trees ranging from 1 1/2" to 6". All heights are approximate.

NO ASSEMBLY REQUIRED!

Trees

Ready Made Trees Value Pack*

No assembly is required! These Value Packs contain Ready Made deciduous or pine trees ranging in size from 3/4" to 8". They are the quickest, most economical way to add trees to a landscape. Attach to layout with Hob-e-Tac® Adhesive or Scenic Glue. Come with detachable bases.

NO ASSEMBLY REQUIRED!

Forest Canopy™

This natural plant product is great for making dense forest canopies, individual trees, shrubs, bushes, dead trees and hedges. It is perfect for winter scenes, or for adding individual dead trees to your forest. Every piece of the product is useable and adds another dimension and texture to your layout or diorama. Customize pieces by breaking them into any size to fit your needs!

151 sq. in. (2474 cu. cm.)

- Economical forest coverage
- Natural plant material
- Varies in height up to six inches
- Great for multiple scales

Create dense forests.

Strip foliage for dead trees.

Model shrubbery.

Strip foliage to create winter scenes.

It's as easy as one, two, three!

Fine-Leaf Foliage*

Fine-Leaf Foliage is great for modeling bushes, saplings, shrubs, hedges and makes exquisite trees. Every piece of the product can be used. The fine-leaf detail is superb and adds a new dimension to any layout. A Tree Armature is included in each package. Attach to Tree Armatures with Hob-e-Tac® Adhesive. Use Scenic Glue to attach to layout. Sizes vary from 1/2" to 8". 75 cu. in.

Realistic Tree Kits*

The difference between a good layout and a great one is trees: in different sizes, shapes, textures and colors. Our deciduous and pine Realistic Tree Kits include Tree Armatures with bases and foliage materials. Packages TR1101-TR1103 include a mix of three different colors. They offer tremendous variation and are economically priced. A bonus Fine-Leaf Foliage sample is included in TR1111 and TR1112. Use Hob-e-Tac® Adhesive to attach foliage to Tree Armatures. Come with detachable bases.

Lead-Free Metal Tree Kits

These are highly-detailed, extremely versatile trees, designed to lend realism and variety to any layout. Use Hob-e-Tac® Adhesive or Scenic Glue to attach the pre-colored, non-metallic foliage to the bendable lead-free metal armatures. Lightly spray with Scenic Cement to add Fine or Coarse Turf accent colors, Fruit or Flowers.

Small Tree Kits

Each tree kit contains two to five bendable lead-free metal armatures. There are ten different kits available including deciduous, pine and dead trees.

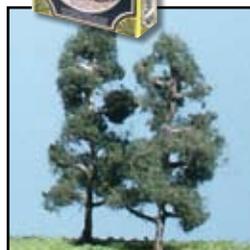

Forked Tree TK11
2 1/4" (4/kit)

Ornamental TK12
2 1/2" (5/kit)

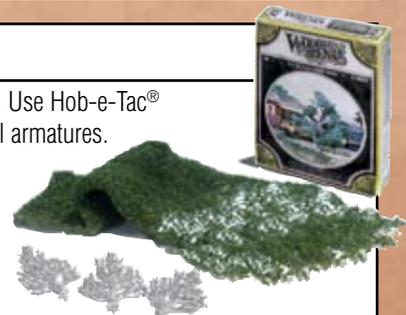

Straight Trunk TK13
2 1/2" (5/kit)

Softwood Pine TK14
3 1/4" (5/kit)

Shag Bark TK17
3 1/2" (3/kit)

Double Forked TK18
3 1/2" (2/kit)

Shade Tree TK19
4" (2/kit)

Columnar Pine TK20
4 1/2" (4/kit)

Gnarled TK21
4 1/2" (2/kit)

Dead Trees TK22
(5/kit)

Large Tree Kits

These bendable lead-free metal tree kits take tree-making to new heights! The Hedge Row Scene allows you to recreate Mother Nature at her best.

Pine Tree TK23
6" - 9" (5/kit)

Hedge Row Scene TK24
24" - 30" (18 trees & 6 bushes/kit)

Hardwood Trees TK25
5 1/2" - 6 1/2" (3/kit)

Big Old Trees TK26
7" - 7 1/2" (2/kit)

Forest Kits

The Pine and Hardwood Forest bendable lead-free metal tree kits are the most economical trees. The cost (per tree) of these kits is so inexpensive you can afford to create entire forest areas.

Pine Forest TK27
2" - 4" (24/kit)

Hardwood Forest TK28
2" - 4" (24/kit)

Ready-To-Go Products

Great layouts don't have to take all of your free time. These products are ready to set right on your layout. They're great for kids, and perfect for adults with busy lives. Best of all, your layout will look like you spent hours...only you'll know how easy it was!

Built-&-Ready® Structures

These preassembled, hand-painted and fully detailed N and HO scale structures are great for building cities, towns and villages. Each is individually molded with intricate architectural detail.

Scenic Accents®

This collection of N, HO, O and G scale figures, animals and accessories have been sculpted with detail and are hand-painted. Each piece exudes personality created by the craftsman, and is a work of art at an affordable price. Their natural charm will steal the show.

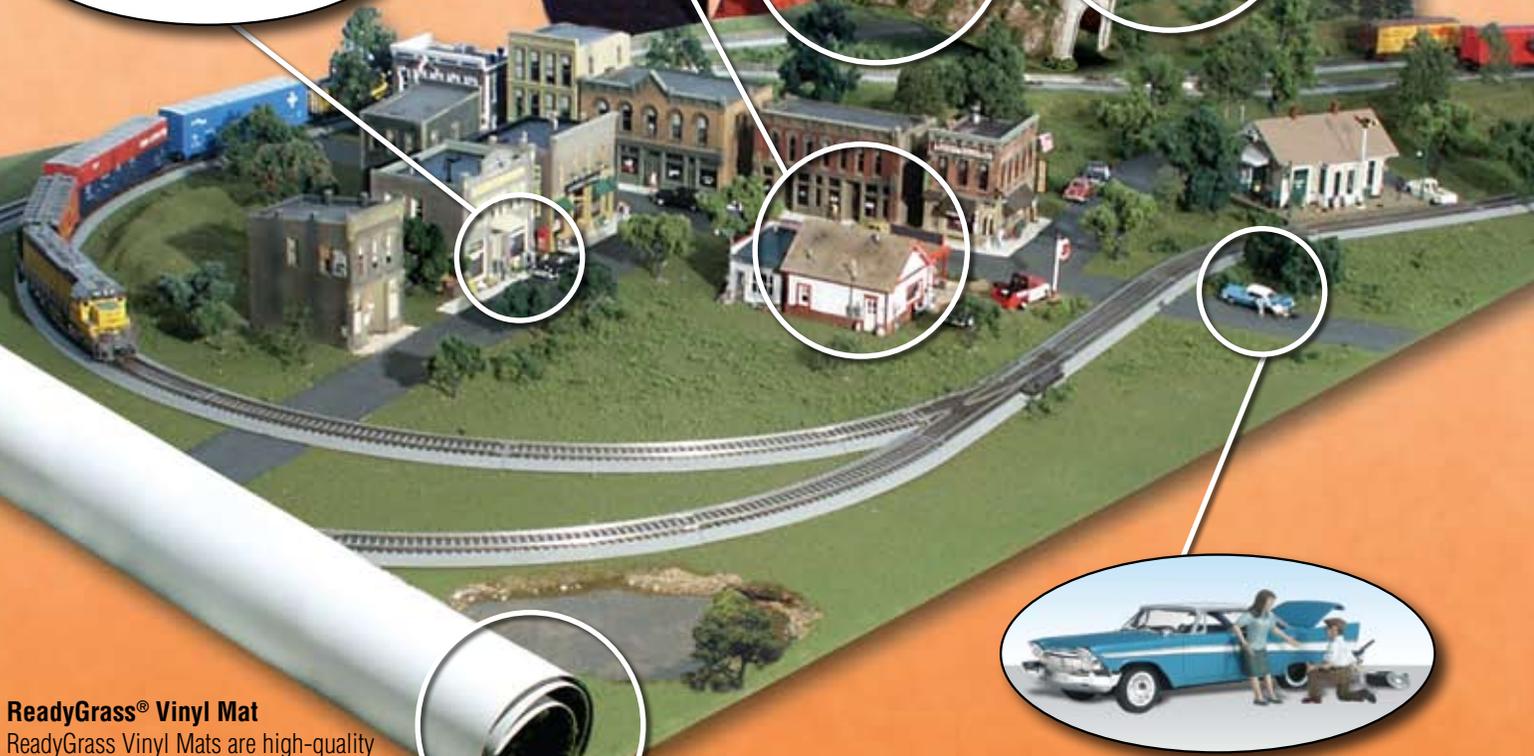

Ready Landforms™

These Ready Landforms are preformed and durable. Because they are already landscaped, they easily blend with any layout. Tunnels and Rocky Ridges are the perfect complements to ReadyGrass Vinyl Mats.

Ready Made Realistic Trees, Premium Trees™ and Ready Made Trees Value Pack

No assembly required! These trees lend authenticity to any layout or diorama. Their natural colors and realistic textures blend with other Woodland Scenics® landscaping products. Plant trees in clusters and intermix foliage colors.

ReadyGrass® Vinyl Mat

ReadyGrass Vinyl Mats are high-quality grass mats that are great to use as is or mounted to any flat surface. Four fade-resistant colors available in two Roll sizes and Project Sheets.

AutoScenes®

AutoScenes have been finely crafted and custom painted to depict realism. They add life, color, interest and authenticity to any layout scene or diorama. Not just automobiles, but real figures and accessories that capture the '40s and '50s era. These are true 1:160 N scale and 1:87 HO scale models.

N, HO, O and G Scale Scenic Accents® ‡

This collection of N, HO, O and G scale figures, animals and accessories have been sculpted with detail and are hand-painted. Each piece exudes personality created by the craftsman, and is a work of art at an affordable price. Their natural charm will steal the show. To attach, apply Scenic Accents® Glue and set in place with Gentle Grips® (page 48).

‡All Scenic Accents conform to Health Requirements of ASTM D4236.

Assorted Figure Set
HO - A2053 N - A2063

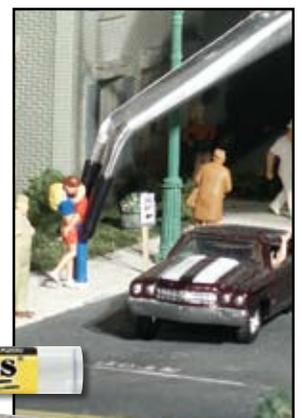

Scenic Accents® Glue† A198

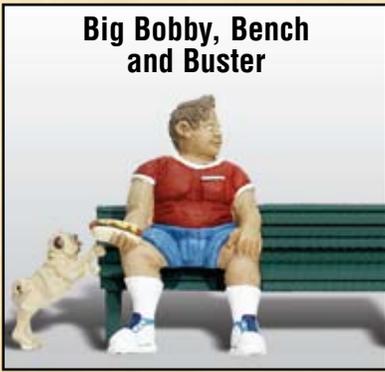

This adhesive is specially formulated for attaching Scenic Accents or other types of figures to a layout. Scenic Accents Glue stays tacky and allows for repositioning, without having to reapply glue each time. Sand glue points and apply glue. Let dry until clear and tacky, then place on layout. A brush applicator is included. 1.25 fl. oz.

Gentle Grips® A200

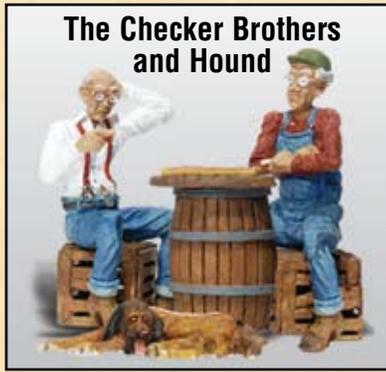

This unique tweezer is used for positioning Scenic Accents or any scale figures that fit in the tweezer head. The protective tips will not damage figures. Gentle Grips come in a handy storage tube and feature non-slip grips. 6 inch tines

SCALE CHART

"In Scale" is the relationship between the size of two items. In model railroading, it is generally expressed as a ratio. For example, HO scale is 1:87, that is one inch on the model to 87 inches in the real world. This chart shows the average man in common scale in model railroading.

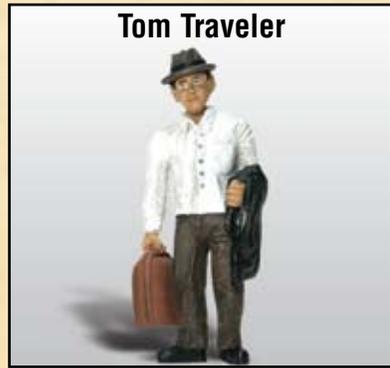

Figures shown actual size.

Scenic Details®

These kits are finely crafted HO scale reproductions. The white metal castings are highly detailed and lead-free. Use Scenic Details anywhere on your layout. They fill in small empty spaces beside railroad tracks and add a great amount of detail to your layout with items like crates, barrels, skids, junk piles, animals and more. Add Scenic Details after all of the landscaping has been finished, to ensure proper placement. Colorful Dry Transfer Decals are included in some of the kits. Scenic Details are economical, easy to assemble and fun to paint. They add color, interest and authenticity to your layout. Attach to layout with Scenic Accents® Glue, Hob-e-Tac® Adhesive or Scenic Glue. We recommend using super glue or a two-part epoxy to assemble Scenic Details. Scene measurements are approximate.

D241 (3 3/8" long x 3 3/4" tall)

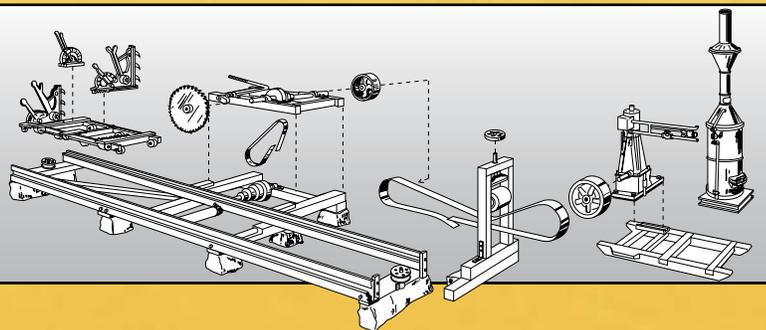

Rural Sawmill
D243 (3 1/4" long x 2" tall)

Street and Traffic Lights
D248 (3" diameter x 2 5/8" tall)

Scenic Details®, Mini-Scene®, Complete Scenes and Trackside Scenes all contain lead-free, white metal castings that are loaded with details and easy to assemble. First clean castings, then glue pieces according to included diagrams and instructions using a cyanoacrylate (super glue). Let glue dry, then paint.

N and HO Scale AutoScenes® ‡

AutoScenes have been finely crafted and custom painted to depict realism. They add life, color, interest and authenticity to any layout scene or diorama. Not just automobiles, but real figures and accessories that capture the '40s and '50s era. These are true 1:160 N scale and 1:87 HO scale models.

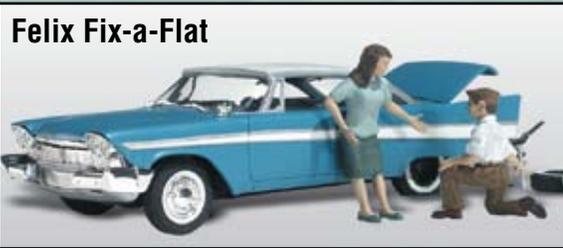

*All AutoScenes conform to Health Requirements of ASTM D4236.

Scenic Details^{®†}

These kits are finely crafted HO scale reproductions. The white metal castings are highly detailed and lead-free. Use these vehicles anywhere on your layout to add a great amount of detail and realism. Add Scenic Details after all of the landscaping has been finished, to ensure proper placement. Colorful Dry Transfer Decals are included in some of the kits. Scenic Details are economical, easy to assemble and fun to paint. They add color, interest and authenticity to your layout. Attach to layout with Scenic Accents[®] Glue, Hob-e-Tac[®] Adhesive or Scenic Glue. We recommend using super glue or a two-part epoxy to assemble Scenic Details. Scene measurements are approximate.

Design Preservation Models (DPM) is a line of N, HO and O scale building kits and modular pieces for modelers who want to assemble realistic structures. The DPM name ensures high-quality, architecturally accurate models that have been specifically researched and developed for the model railroading industry. These kits represent the 19th and 20th Century. The entire line of DPM building kits and modular pieces are very easy to assemble and allow modelers total creative freedom to paint, weather and detail as they wish. DPM structures are available in...

- *Gold Kits* - themed building packages that include complete buildings, decals, signs and an abundance of details
- *Building Kits* - complete buildings that come with walls, plus roof and window materials
- *Modular System* - unlimited building options with interchangeable wall sections that make it fun and easy to build a structure of any size, shape and height: whatever you want or need for your layout
- *Modular System Designer Bulk Packs* - each features a different architectural style with plans included for three specific buildings

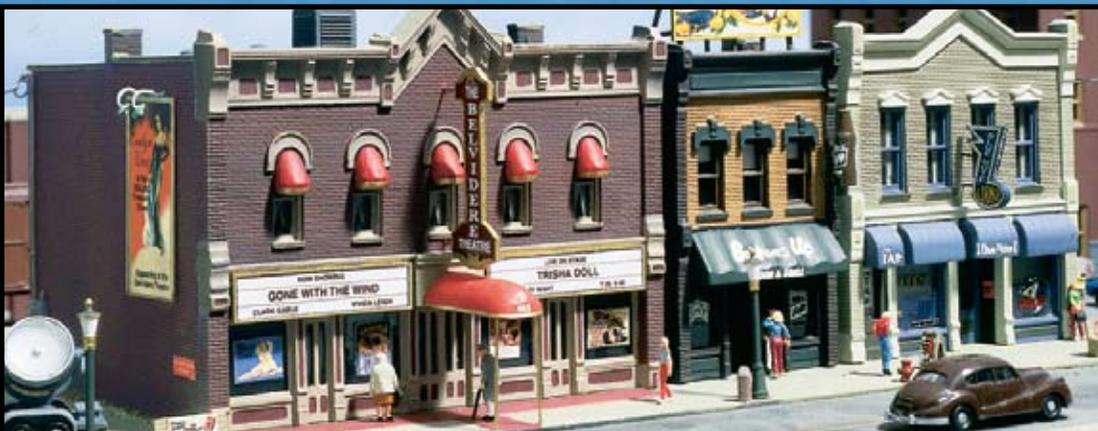

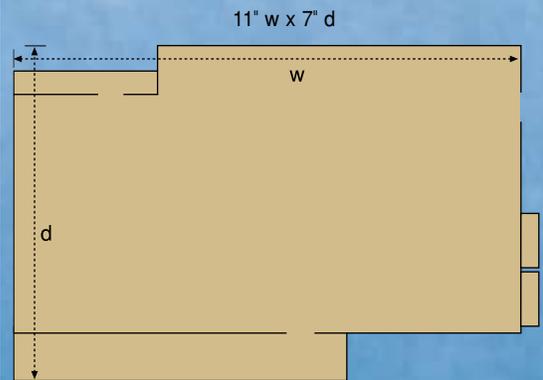

N Scale Gold Kits[†]

The DPM gold seal signifies our Detailed Editions. These four N scale Gold Kits include highly detailed white metal castings, Dry Transfer Decals and illustrated instructions. They create entire scenes. Look for the full-color packaging with the gold seal.

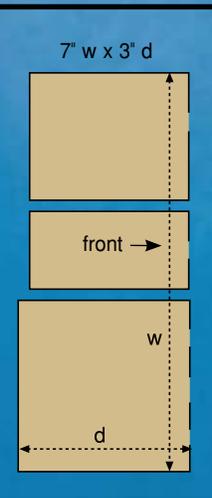

[†]All DPM Gold Kits conform to Health Requirements of ASTM D4236.

UNLIMITED BUILDING OPTIONS

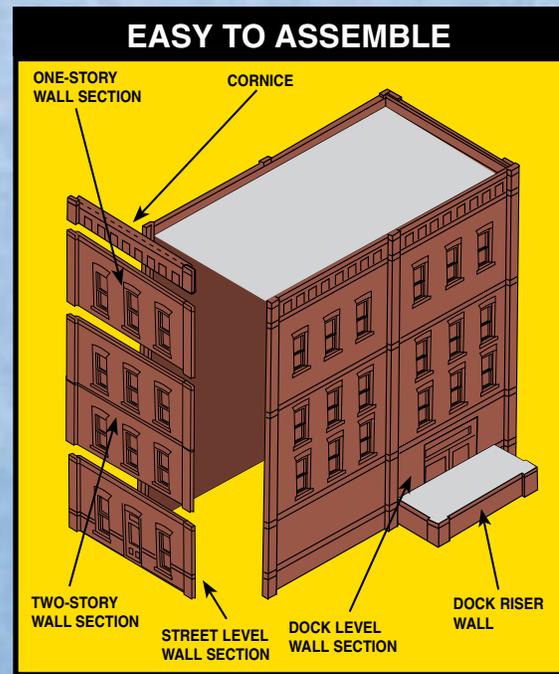

Interchangeable plastic wall sections make it fun and easy to create buildings of any size, shape or height. Use plastic model cement or solvent.

BUILD AS MANY STORIES AS YOU NEED:

- One-story building - use street or dock level wall sections and cornice.
- Two-story building - use street or dock level wall sections, top with one-story wall sections and cornice.
- Three-story building - use street or dock level wall sections, top with two-story wall sections and cornice.
- More stories - add additional wall sections to create as many stories as desired.

Packages include three identical double bay wall sections with pilasters, door, windows and clear window material where needed. All sections are the same color and width (3 1/2"). Cornice packages include nine pieces of cornice with cornice pilasters. Dock riser wall packages include six dock riser wall sections with dock pilasters.

[‡]All N, HO and O Scale Modular System Sections conform to Health Requirements of ASTM D4236.

HO Scale Planning Packet #30191

Pre-plan buildings with three-dimensional paper mock-ups. The HO scale Planning Packet contains full-sized drawings of wall sections. To use, make photocopies of drawings, cut out the wall section copies you want and arrange into paper walls. Tape walls on cardboard. Cut out cardboard and tape together. Modify mock-up until it is satisfactory, then purchase the required wall sections to construct your building.

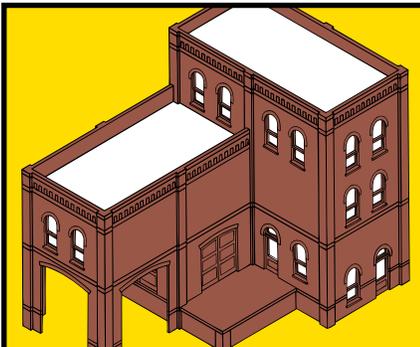

Also available on DPM Web site www.dpmkits.com. FREE DOWNLOAD.

HO Scale Modular Option Packs

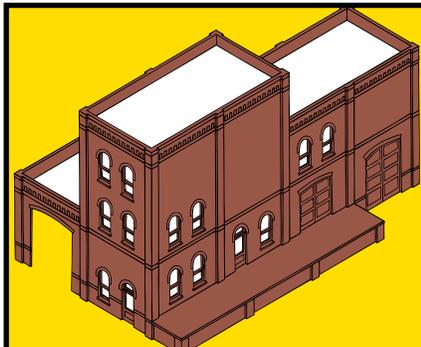

Each pack contains a variety of wall section quantities, styles and suggested building options. You can add to these kits from your dealer's stock of Modular System parts to create an even larger structure!

3-in-1 Modular Kit #35100
120 pieces (approx. 8 1/2" w x 6" d x 5" h)

4-in-1 Modular Kit #35200
175 pieces (approx. 7 1/2" w x 8 1/2" d x 7" h)

4-in-1 Modular Kit #35300
213 pieces (approx. 8 1/2" w x 11 1/2" d x 7" h)

Roof and Trim Kit #30190

This kit provides styrene plastic roof material, brick parapet wall trim strips and styrene plastic inside corner strips for modular buildings of your own design. Assorted roof vents and hatches for all buildings are included. Parts are plastic and add fine detail and realism to buildings.

Assorted Roof Vents

(8 total)

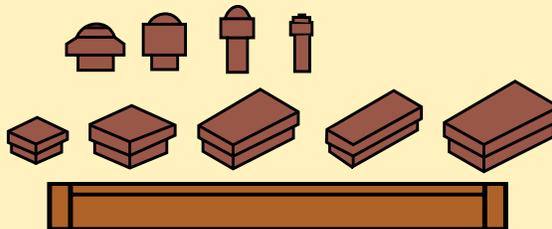

Assorted Hatches

(5 total)

Parapet Wall Trim

(9 pieces = 49 1/2")

Also includes: two sheets styrene plastic roof material (6" x 8 1/2" each), two strips styrene plastic inside corner strips.

HO Scale Modular Learning Kit# #36000

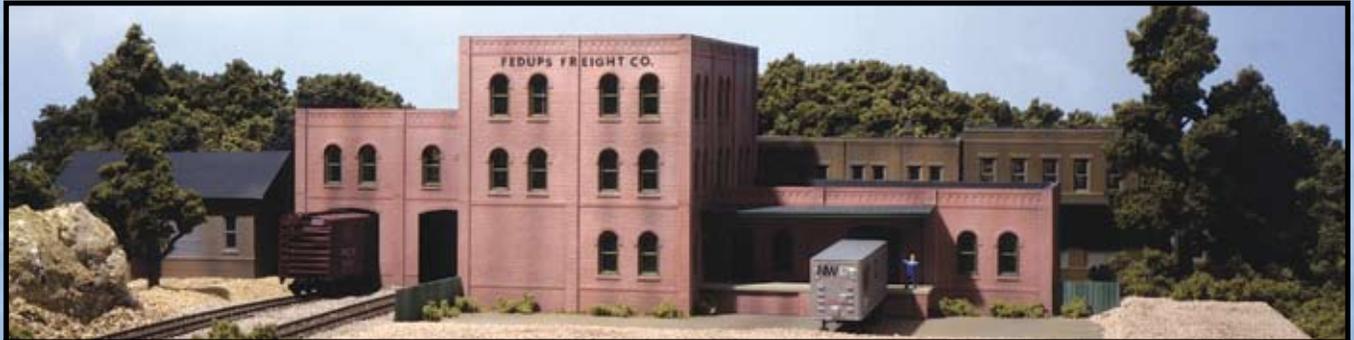

This is the fun and easy way to learn the skills needed for building any of DPM's modular buildings. Complete instructions and planning packet show you how to do it. The result is this 5 3/4" w x 3" d building, featuring excellent detail and a variety of uses on your HO layout. The kit provides everything you need, including Woodland Scenics Dry Transfer Decals, roof and clear window material. Use any plastic model cement or solvent.

†Conform to Health Requirements of ASTM D4236.

HO Scale Modular Building Kits[‡]

These three industrial buildings are highly detailed kits that add realism to your HO scale layout. They include injection molded styrene plastic modular parts, roof and clear window material and complete instructions. They are easy to assemble with plastic model cement or solvent. These kits are unique because they can be expanded using additional DPM modular parts.

[‡]All HO Scale Modular Building Kits conform to Health Requirements of ASTM D4236.

HO Fedups Freight Co. (19 3/4" w x 8 3/4" d x 6 3/4" h) #35400
A shipping and receiving center for an action-oriented focal point.

HO Tera Surplus Window Warehouse #35500
(8 3/4" w x 11 1/2" d x 12 1/2" h)
A big industrial/warehouse structure with high profile.

HO Powerhouse (11 1/4" w x 5 3/4" d x 10 1/2" h) #35600
A large and impressive industrial structure with dramatic three-story windows.

Modular System Designer Bulk Packs[‡]

Each Designer Bulk Pack features a different architectural style with plans for three specific buildings. All the plastic modular parts needed to finish any one of the three building designs are included, plus plastic styrene roof material and clear window material. Complete instructions, building plans, plus painting and weathering tips make it fun and easy. Use plastic model cement or solvent.

You can expand the three building designs, provided in each Designer Bulk Pack, by adding other wall sections (see page 78, HO Scale Modular Parts). Or use the Packs as an economical way to purchase modular parts for your own designs. You'll save about 40% over purchasing the same wall sections in separate packages.

The Planning Packet in each Designer Bulk Pack makes it simple to design exactly what you want, by building paper mock-ups. You can fabricate a building of any size and shape by combining different elements from the Modular Building System Designer Bulk Packs and more than 40 interchangeable wall sections. The possibilities are virtually limitless.

[‡]All Designer Bulk Packs conform to Health Requirements of ASTM D4236.

HO 11 5/16" w x 8 9/16" d x 6 3/4" h

14 1/16" w x 5 3/16" d x 6 3/4" h

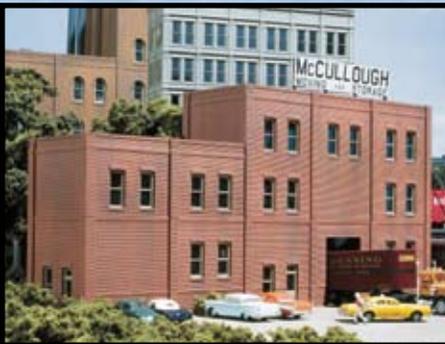

11 5/16" w x 8 9/16" d x 6 3/4" h

Arched Window Industrial Building #36100

Arched Window Industrial Buildings embody classic architectural features. Designed for factory, warehouse or institutional usage, they endure in every skyline.

Figures, vehicles and decals not included.

HO 4 11/16" w x 3 1/16" d x 6 3/4" h

8 9/16" w x 8 9/16" d x 8 5/8" h

11 5/16" w x 5 13/16" d x 6 3/4" h

Rectangular Window Industrial Building #36200

Rectangular Window Industrial Buildings premiered in the late 1800s. Popular as factories, warehouses and institutional buildings, they maintain their profiles in cities and towns today.

HO 8 9/16" w x 8 9/16" d x 8 5/8" h

11 5/16" w x 5 13/16" d x 8 5/8" h

11 5/16" w x 5 13/16" d x 6 3/4" h

Victorian Style Storefront Building #36300

Victorian Style Storefront Buildings characterize the ornate style of the 19th Century. Retail stores commonly occupy the street level, while the upper floors function as offices, showrooms and department stores.

HO 11 5/16" w x 5 13/16" d x 8 5/8" h

8 9/16" w x 5 13/16" d x 10 1/2" h

8 9/16" w x 5 13/16" d x 10 1/2" h

Twentieth Century Storefront Building #36400

Twentieth Century Storefront Buildings enhance the marketplace with dignified style. The upper floors accommodate offices, showrooms and financial institutions, while large display windows at street level attract customers to the retail activity within.

HO 11 5/16" w x 5 13/16" d x 8 5/8" h

11 5/16" w x 5 13/16" d x 8 5/8" h

8 9/16" w x 8 9/16" d x 8 5/8" h

Steel Sash Window Industrial Building #36500

Steel Sash Window Industrial Buildings gained popularity early in the 20th Century. Larger windows provide energy-conserving light to the workplace, while multiple panes of glass, supported by steel framework, create an open feeling.

O Scale Building Kits[‡]

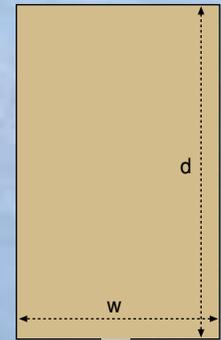

These three beautiful building kits are individually hand-cast in high-quality tooling resin with architectural details molded in place. Roof and clear window material and complete instructions are included. The kits are easy to assemble with plastic model cement.

*All O Scale Building Kits conform to Health Requirements of ASTM D4236.

O Scale Modular System[‡]

UNLIMITED BUILDING OPTIONS

Interchangeable plastic wall sections make it fun and easy to create buildings of any size, shape or height. Architectural details are molded in place. Any epoxy is recommended for O scale buildings. Build large or small O scale buildings, whatever you need, designed especially for your layout. All wall sections are the same height and width (4 1/8"). Build second and third stories by stacking up the desired wall sections. Top it all with cornices when you reach the height you want.

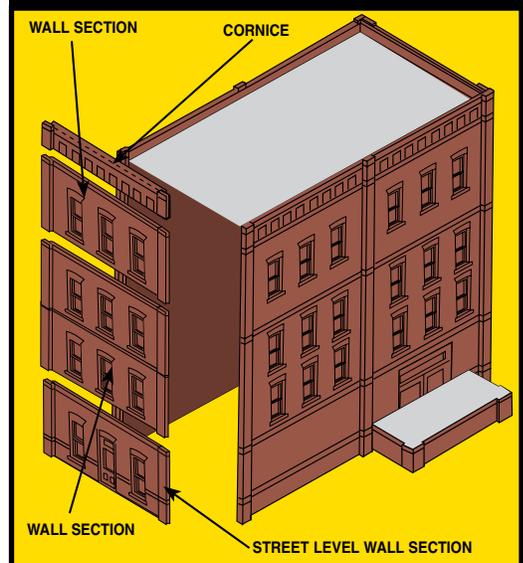

BUILD AS MANY STORIES AS YOU NEED:

- Two identical walls with pilasters, plus clear window material.
- Dock riser wall packages include four dock riser walls with pilaster.
- Cornice packages include eight pieces of cornice with cornice pilaster.
- Complete instructions.

**WALL SECTIONS MAKE WALLS.
WALLS MAKE BUILDINGS.**

EASY TO ASSEMBLE

*All N, HO and O Scale Modular System Sections conform to Health Requirements of ASTM D4236.

O Scale Planning Packet #90191

Pre-plan buildings with three-dimensional paper mock-ups. The O scale Planning Packet contains full-sized drawings of wall sections. To use, make photocopies of drawings, cut out the wall section copies you want and arrange into paper walls. Tape walls on cardboard. Cut out cardboard and tape together. Modify mock-up until it is satisfactory, then purchase the required wall sections to construct your building. Also available on DPM Web site www.dpmkits.com. FREE DOWNLOAD.

O Scale Modular Building Kits[‡]

These highly detailed kits add authenticity and realism to your O scale layout. They include injection molded styrene plastic modular parts, roof and clear window material and complete instructions. Modular Kits are easy to assemble with plastic model cement or solvent.

[‡]All O Scale Modular Building Kits conform to Health Requirements of ASTM D4236.

Woodland Scenics Building Sets

Each of these building sets contain a collection of individual, architecturally accurate building kits that are a perfect complement to any layout! They include loads of detailed, lead-free, metal accessories and Dry Transfer Decals. Each building set is a complete city in a box at a super value!

City & Industry Building Set

S1486

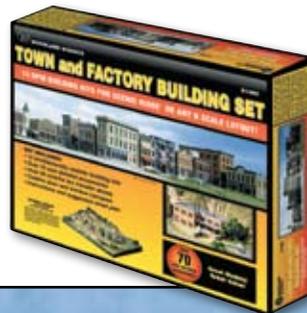

- Complements Grand Valley Layout Kit or any HO scale layout
- A complete city in a box
- Fifteen HO scale building kits
- Buildings feature molded-in, architectural details
- Over 160 detailed accessories and 130 Dry Transfer Decals
- Super value - saves money over items purchased separately

Town and Factory Building Set

Set S1485

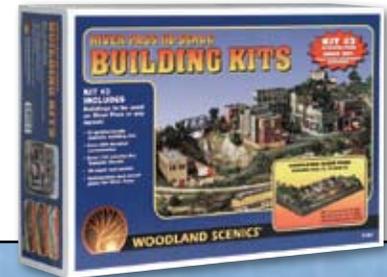

- Complements Scenic Ridge Layout Kit or any N scale layout
- Thirteen N scale building kits
- Buildings feature molded-in, architectural detail
- Over 70 detailed accessories and 60 Dry Transfer Decals
- Super value - saves money over items purchased separately

Building Kits #3 S1487

These kits are a collection of 15 buildings, created with authenticity and fine detail. These include all the detailed accessories and Dry Transfer Decals you'll need to detail the buildings on your layout. Use the included River Pass street plan, or create your own HO scale plan, using an existing layout.

- Over 200 detailed accessories
- 110 Dry Transfer Decals
- 20 signs and posters

Scenic Details®

These kits are finely crafted HO scale reproductions. The white metal castings are highly detailed and lead-free. Use these buildings anywhere on your layout for structures with a great amount of detail and realism. Add Scenic Details after all of the landscaping has been finished, to ensure proper placement. Colorful Dry Transfer Decals are included in some of the kits. Scenic Details are economical, easy to assemble and fun to paint. They add color, interest and authenticity to your layout. Attach to layout with Scenic Accents® Glue, Hob-e-Tac® Adhesive or Scenic Glue. We recommend using super glue or a two-part epoxy to assemble Scenic Details.

Scenic Details®, Mini-Scene®, Complete Scenes and Trackside Scenes all contain lead-free, white metal castings that are loaded with details and easy to assemble. First clean castings, then glue pieces according to included diagrams and instructions using a cyanoacrylate (super glue). Let glue dry and paint.

Mini-Scene® †

To add humor and realism to your layout, create these delightful Mini-Scenes in HO scale. Complete kits contain lead-free metal castings and landscaping materials. Assemble and then finish with our Pewter Patina or Paint Set. Miniature scene collectors will enjoy building and finishing these scenes. We recommend using super glue or a two-part epoxy to assemble Mini-Scenes. *All scenes designed to fit in Glass Display Dome and Base (3" diameter x 4¼" high).*

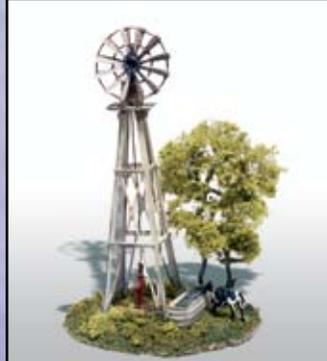

†All Mini-Scenes conform to Health Requirements of ASTM D4236.

Abandoned Log Cabin M101

Moonshine Still M102

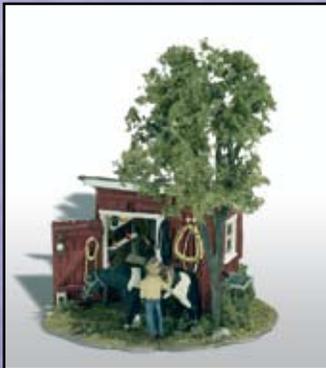

The Windmill M103

The Hunter M104

The Sign Painter M105

The Tack Shed M106

Tommy's Treehouse M107

Outhouse Mischief M108

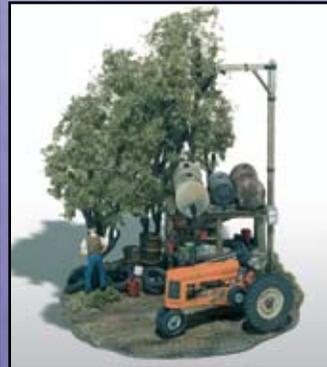

Ernie's Fruit Stand M109

Saturday Night Bath M110

Floyd's Barber Shop M111

Tractor Pit Stop M112

Mini-Scene® Paint Set M125

This paint is used for painting metal details. It includes 12 assorted colors: red, yellow, blue, black, gray, white, cream, tan, rust, yellow ocher, brown and pewter. Paint is non-toxic, non-flammable and water-soluble.

Pewter Patina Finish M126

For a quality pewter finish on Mini-Scenes use our Pewter Patina Finish. Easily applied by brushing on and wiping off high spots. Finish is non-toxic, non-flammable and water-soluble.

Glass Display Dome and Base M127

For the ultimate display and protection, use our 3" diameter x 4¼" high glass display dome. Plastic base is ½" high.

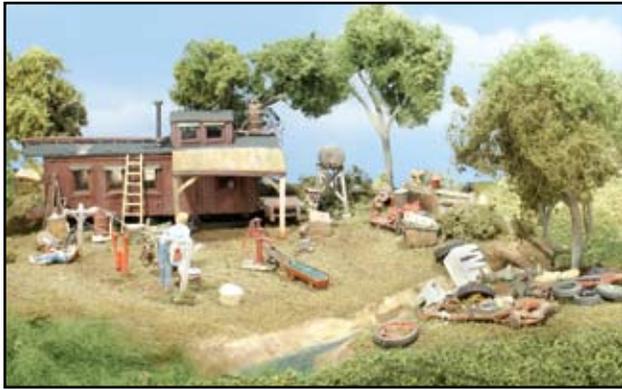

Scene Kits

Trackside Scenes[‡]

Trackside Scenes are designed specifically for the modeler who wants the utmost in fine quality craftsmanship, intricate detail and authenticity. These kits are probably different than any you have previously constructed. These are not simply models of a single item, but of a complete scene. Each HO scale kit contains over 70 highly detailed, lead-free, metal castings. Includes trees, turf, Foliage and all the accessories necessary to complete a scene covering up to 200 square inches. Paint with our Mini-Scene[®] Paint Set (M125, with 12 assorted colors). Any layout will benefit from the addition of one or more of these scenes. We recommend using super glue or a two-part epoxy to assemble Trackside Scenes.

[‡]All Trackside Scenes conform to Health Requirements of ASTM D4236.

Possum Hollow TS151

An abandoned caboose has been converted to a home for a backwoods family. The piles of accumulated junk add to the whimsy of the scene. *9" x 8" scene*

Caboose & Sand Facility TS152

This is a common sight found around railroad yards. The sand tower supplies the locomotives' needs while the storage shed keeps the caboose well-stocked. *9" x 8" scene*

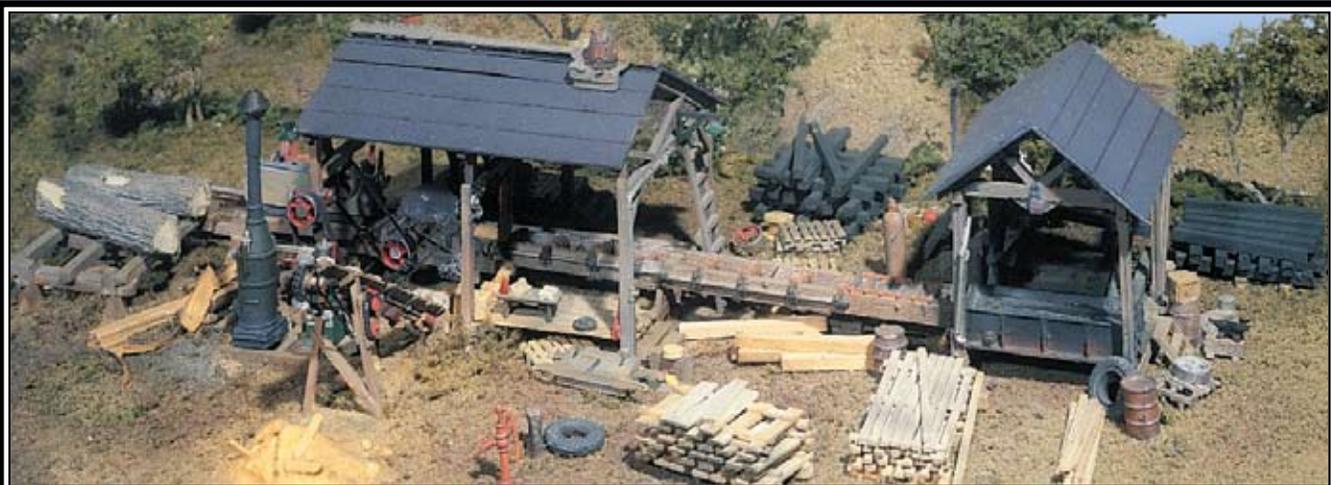

Otis Coal Company TS153

Private coal companies like this were found along spur lines throughout the United States. Such facilities served as the link between the long coal trains and the consumer. *18" x 8" scene*

Tie & Plank Mill TS154

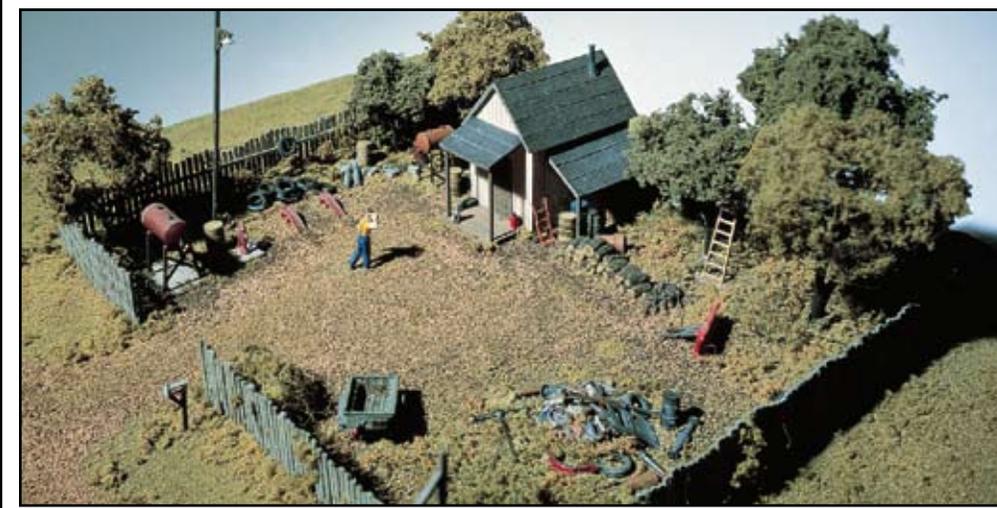

This small, steam-powered sawmill and dipping shed converted raw timber into ties and planks to supply the needs of local rail lines. *18" x 8" scene*

Complete Scenes[†]

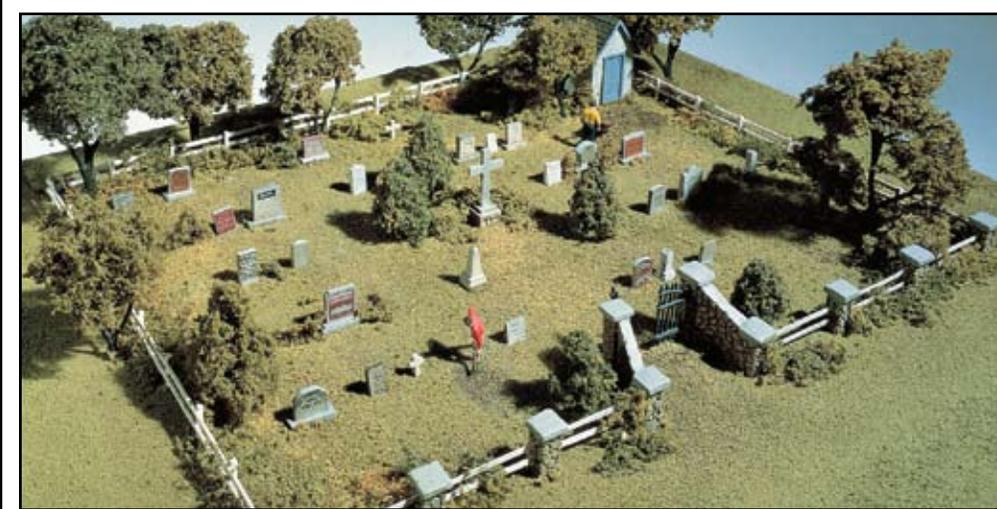

Nearly any model railroad would be improved with the addition of our Complete Scenes. The kits contain highly detailed, lead-free, metal castings, plus all the materials needed to build one of the three scenes shown (except paint and glue). All are HO scale and can be assembled in several different ways to fit into the available space. We recommend using super glue or a two-part epoxy to assemble Complete Scenes.

[†]All Complete Scenes conform to Health Requirements of ASTM D4236.

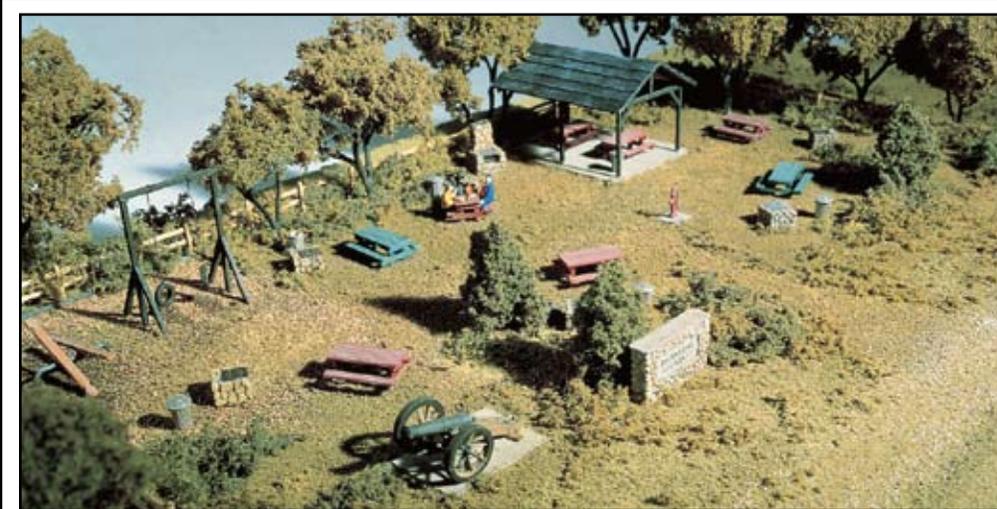

Smiley's Tow Service S130

This scene includes over 60 white metal castings. Seven trees, Foliage and turf are provided to make Smiley's a thriving enterprise.
7" x 9" scene

Maple Leaf Cemetery S131

It is mere chance if you find your name on one of the 28 tombstones included in this kit of more than 40 detailed accessories. Eight trees and all the Foliage and turf are provided to make this scene.
8" x 11" scene

Memorial Park S132

A small community would not be complete without a place to get together on those warm summer evenings. Over 40 detailed accessories - trees, Foliage, turf and the materials for fence and shed - are packed into this scene.
8" x 14" scene

Dry Transfer Decals[‡]

Woodland Scenics® Dry Transfer Decals are the quick and easy way to make your hobby projects look great. The wide range of decals will add desired detail to buildings, fences, signs and box cars in full color. Give your layout, diorama or miniature scene the touch of authenticity needed to bring it truly alive. Our Dry Transfer Decals give you the ultimate in realism without the fuss and bother of wet process decals. 4" x 5" sheets

[‡]All Dry Transfer Decals conform to Health Requirements of ASTM D4236.

1. Position the Dry Transfer Decal where you want it and rub over the top with a Burnisher or dull pencil.
2. Carefully remove the carrier sheet.
3. Place the backing paper over the Dry Transfer Decal and burnish again. Smooth into rough or textured surfaces with light pressure from your thumb or an eraser.
4. Dry Transfer Decals can be "weathered" with a light sanding or other various techniques.

Dry Transfer Burnisher DT600

Use this Burnisher to transfer decals from their carrier sheet to any surface. Made of a smooth-gliding plastic, this burnisher has a fine point for small Dry Transfers and a wide blade for burnishing larger areas, with a chisel point for working Dry Transfer Decals into textures.

Signs & Posters

Transform your cities and towns with color, variety and life. Easily create a large array of business, advertising and railroad signs using D245, DT551-DT557 and DT559-DT563.

Model Graphics®

Model Graphics Dry Transfer Decals are easy to use. Place where desired and burnish (see instructions on page 89). Model Graphics' 64 sheet selection of Dry Transfer Decals contain 340 different alphabets, number sets and line assortments to satisfy the lettering and striping needs of every craftsman. Intricate detailing is quicker, less complicated and more realistic than when attempted with wet process decals.

5 5/8" x 8 1/4" sheets

Dry Transfer Burnisher DT600

Use this Burnisher to transfer Model Graphics from their carrier sheet to any surface.

Hob-E-Lube® Premium Oils†

These oils are plastic and paint compatible. They come with a metal cap and 2 1/4" needle applicator (for hard to reach areas). .5 fl. oz./15 ml.

Ultra-Lite Oil HL661

Contains proven anti-wear additives. Use on HO and smaller scales of model trains, precision instruments or where a light oil is needed.

Medium Oil HL663

Prevents metal contact and surface scuffing. Specially formulated for use on R/C cars, airplanes, boats and HO scale and larger model trains.

Lite Oil HL662

Multi-viscosity additives for trouble-free operation, even at extreme temperatures. Great for home and workshop applications.

Gear Lube HL664

A true gear lubricant, where tough, lasting gear oil is needed.

Hob-E-Lube® Lubricants‡

Use these lubricants on model trains, R/C cars, planes and boats.

Dry Graphite HL651

With Molybdenum: will not collect dust, has good adherence properties and clings to sliding surfaces. Ideal for metal, wood, plastic and rubber.

.21 oz.

Ultra-Lite Oil HL653

A light viscosity oil for small, precision parts. Penetrates and lubricates close-tolerance areas. Includes extension tip for hard-to-reach areas.

.5 fl. oz.

Gear Lube HL655

A tough, long-lasting, heavy-duty, hobby lubricant with tack additive for anti-drip adherence. Use on small gears and at high friction points. Includes extension tip for hard-to-reach areas.

.5 fl. oz.

White Grease HL657

With Teflon*: a non-staining, clean lubricant that is waterproof and protects against corrosion.

1/3 oz.

Dry White Lube HL652

With Teflon*: is white and non-staining. It will not conduct electricity or collect dust. Use on metal, wood, plastic and rubber.

.125 oz.

Lite Oil HL654

A multi-viscosity, general-purpose hobby lubricant for light load-bearing applications. An ideal rust preventative. Includes extension tip for hard-to-reach areas.

.5 fl. oz.

Moly Grease HL656

With Molybdenum: covers the entire surface and maintains viscosity at high temperatures. A high load-bearing, waterproof grease that stays put.

1/3 oz.

7-Pak Workbench Assortment HL650

This super-saver value includes all seven lubricants, plus instructions that list applications and the exact lubricant to use.

†Conforms to Health Requirements of ASTM D4236.

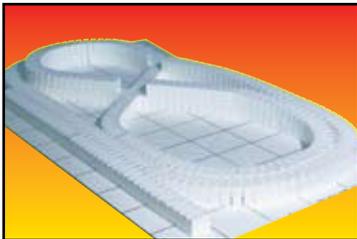

*DuPont registered trademark.

Both Layout Kits:

- Include SubTerrain, terrain and landscape products
- Require no expensive power tools
- Require no complicated calculations
- Are stand-alone layouts or can be customized to fit a larger layout
- Include track plans and illustrated instructions

"...Hello! I purchased your Grand Valley 4x8 kit. This is my first and it turned out beautiful...!"

~Charley Notz, Florissant, Missouri

Install Risers and Inclines on track plan that is pre-printed on the base.

Cut profile contours with the Hot Wire Foam Cutter or Foam Knife.

Use newspaper wads to form terrain contours and cover with wet Plaster Cloth to form a hard shell.

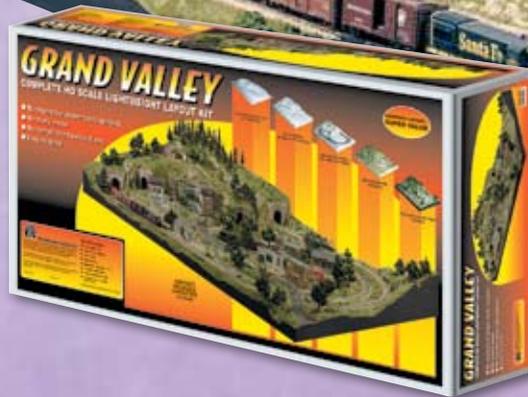

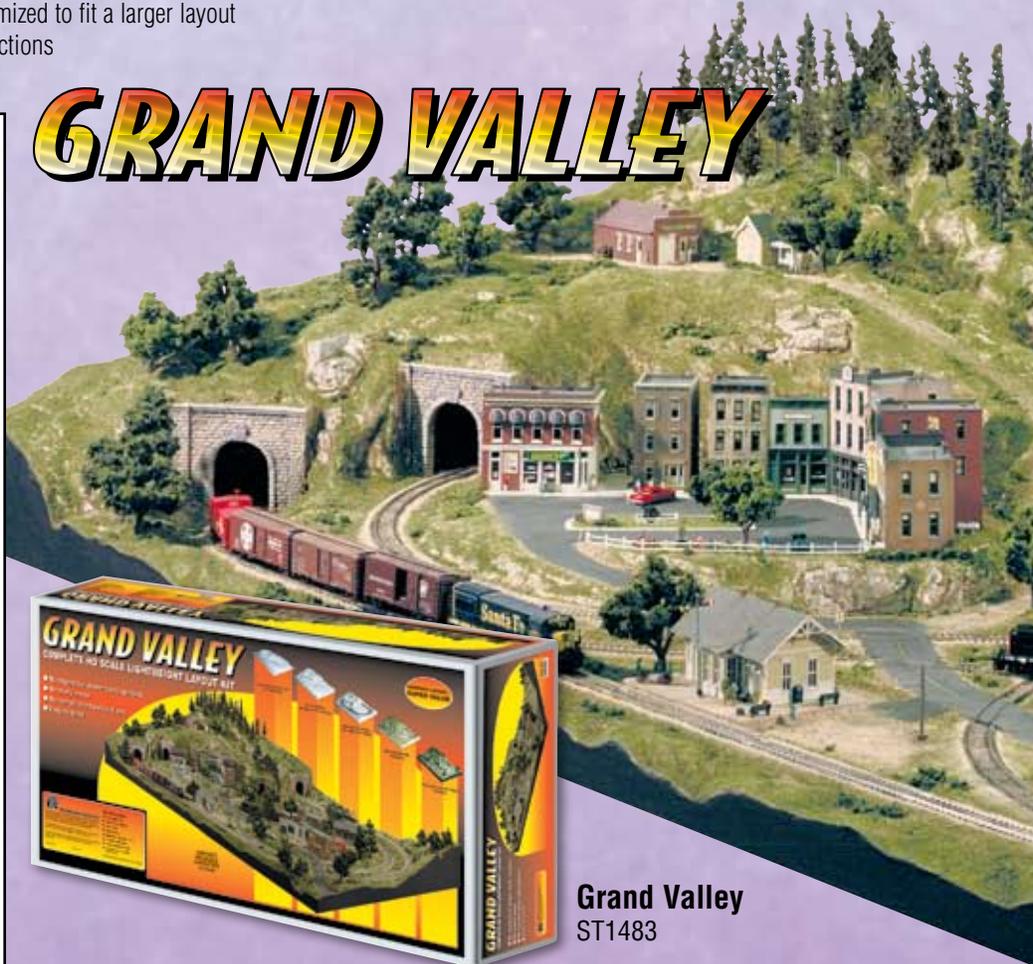

Install and color rocks and Tunnel Portals, paint terrain base and add roads using the Road System.

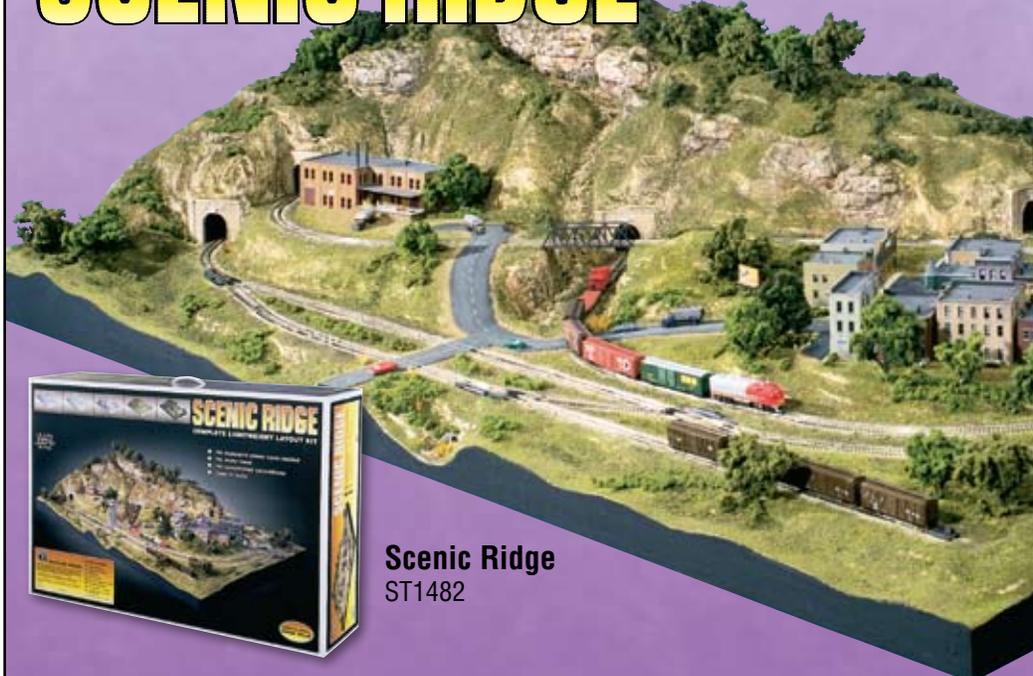

Landscape with ground covers and trees. Paint the layout profile, then add finishing details if desired.

Town and Factory Building Set[†] S1485

- Complements Scenic Ridge Layout Kit or any N scale layout
- Thirteen N scale building kits
- Buildings feature molded-in, architectural detail
- Over 70 detailed accessories and 60 Dry Transfer Decals
- Super value - saves money over items purchased separately

Atlas Track Pack (ST1182) also
available at your local hobby shop.

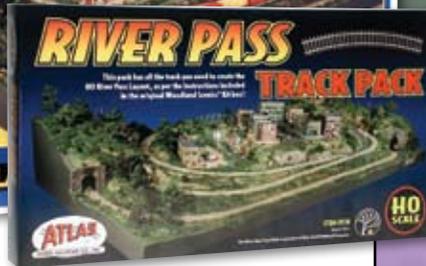

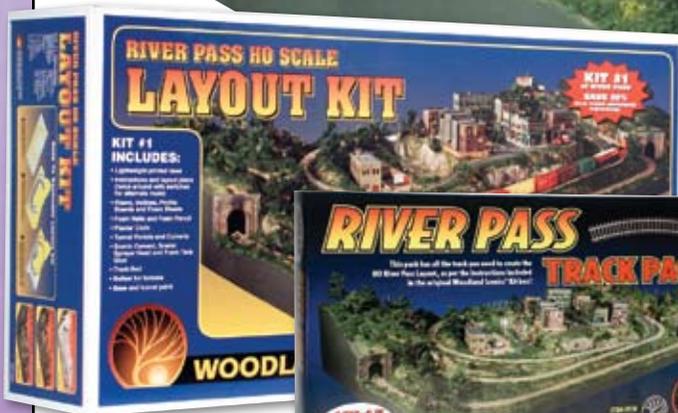

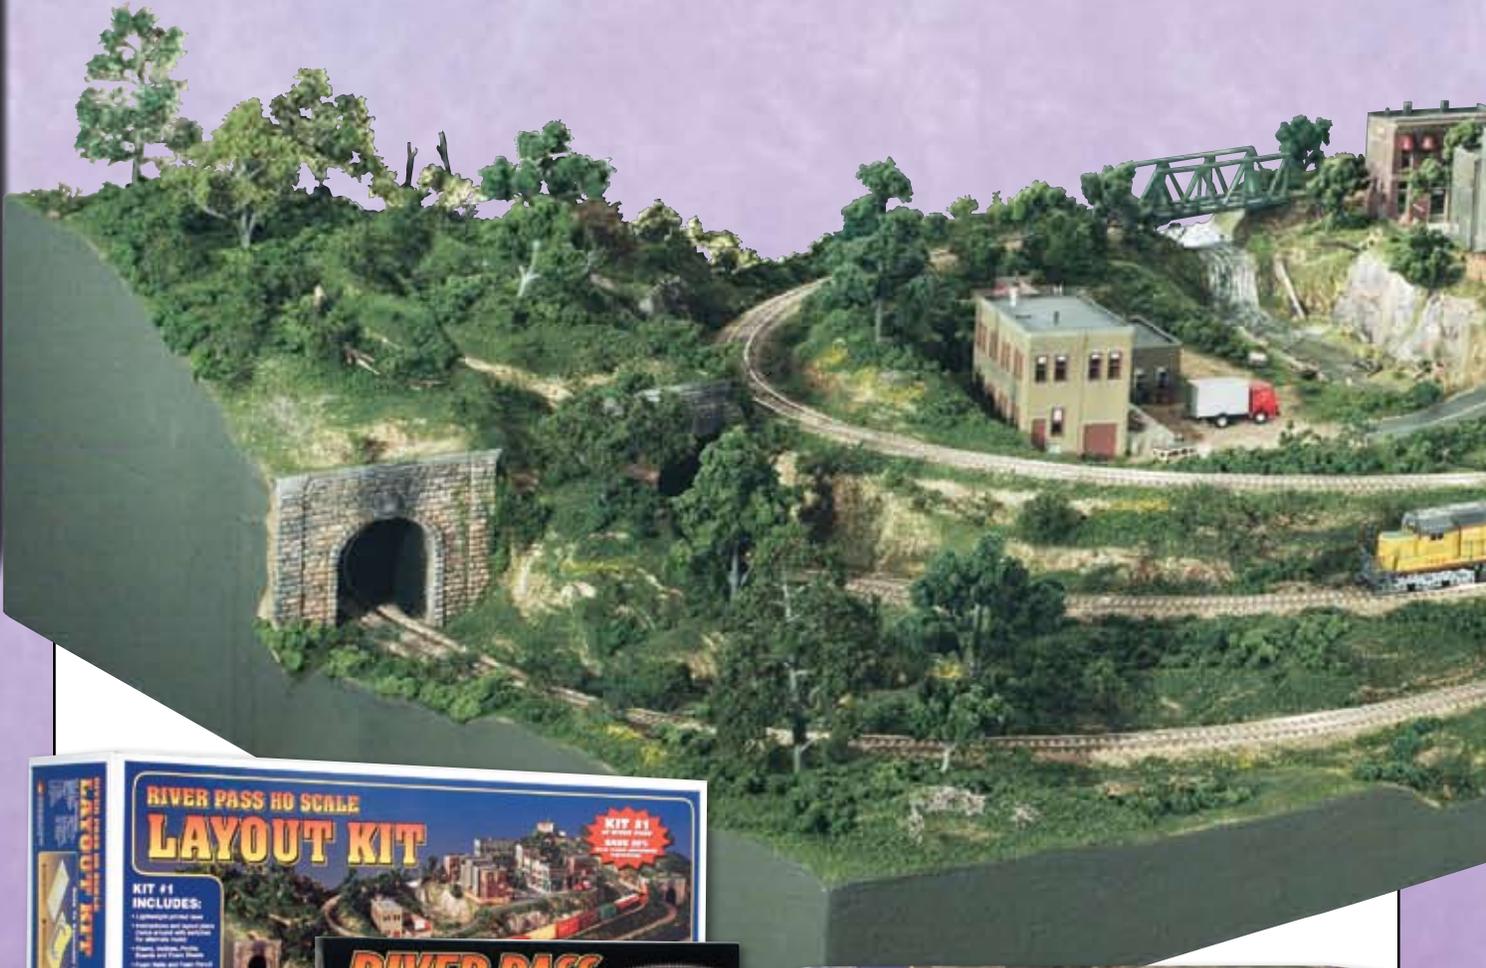

[†]Conforms to Health Requirements of ASTM D4236.

RIVER PASS

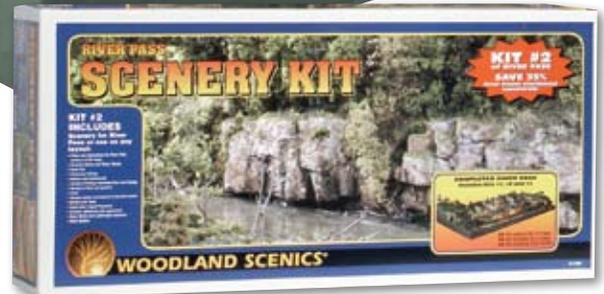

Build a complete 4 x 8-foot layout with three easy-to-assemble kits

These kits are designed to interact, but can be used separately. Each kit includes detailed plans and instructions. When complete, the modeler will not only have a great layout but the knowledge to build more. A completed River Pass can be used independently, can be added to, or attached to an existing layout.

Layout Kits

Atlas Track Pack (ST1184)
also available at your local hobby shop.

Layout Kit #1 ST1484

This kit includes all the materials to build a lightweight SubTerrain layout base. Build up the track and roads with Inclines and Risers and establish flat areas with Foam Sheets. Use Profile Boards to build perimeters. Then build up the terrain with newspaper wads and Plaster Cloth to make mountains, plains and other terrain features with a hard shell.

- No dusty mess
- No power tools or complicated calculations
- Designed for expansion

Scenery Kit #2[†] S1488

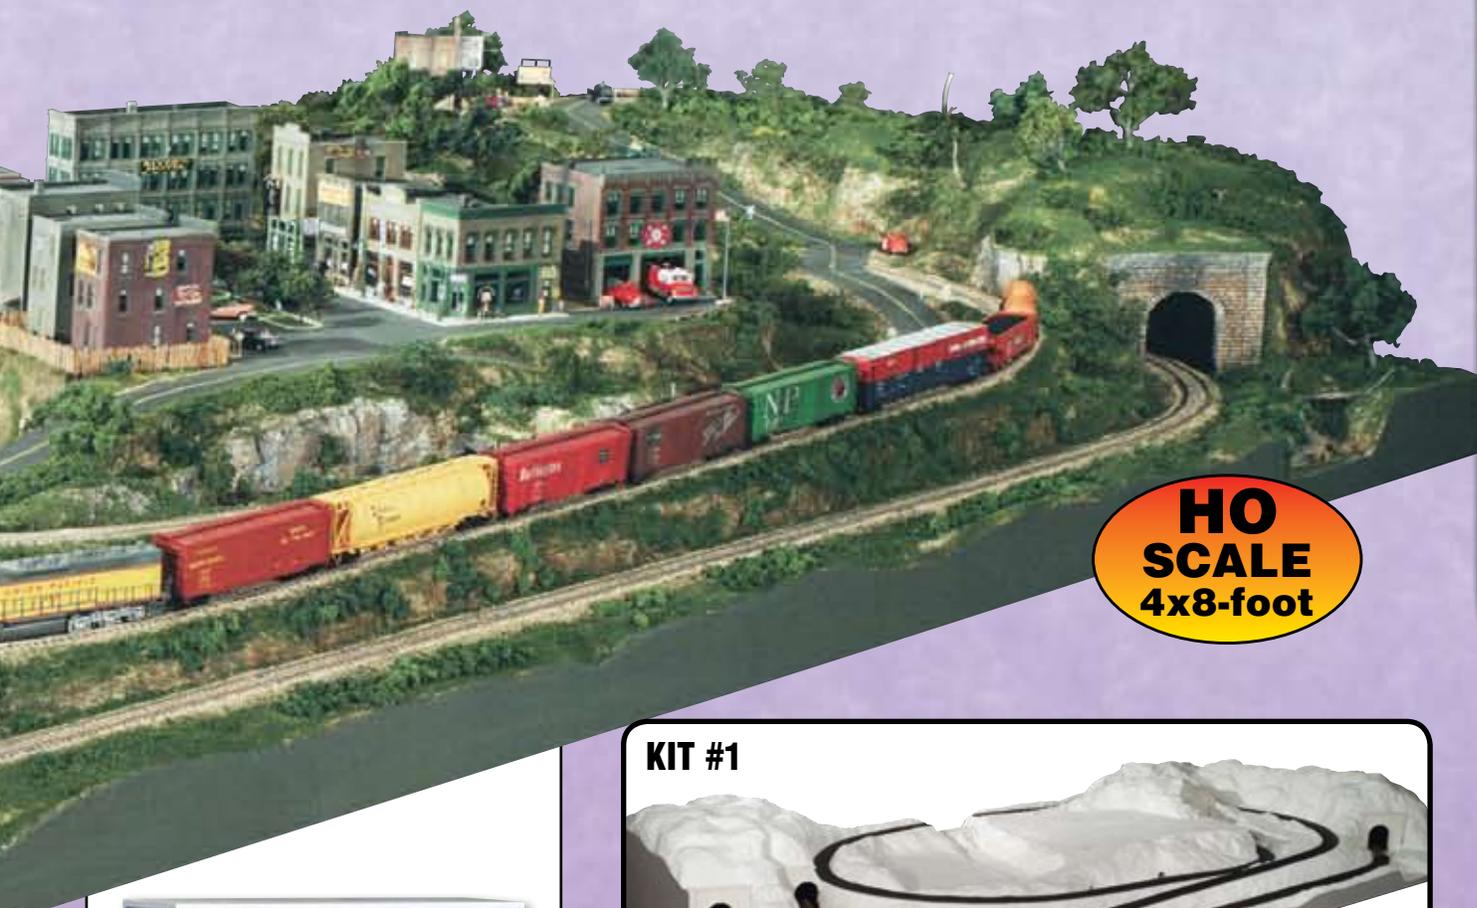

This kit includes enough scenery materials to cover the River Pass Layout Kit or any 4 x 8-foot layout. It features Realistic Water and Water Effects, Dead Fall, Flowering Foliage, Underbrush, Bushes, Fine-Leaf Foliage, Rock Molds, Fine Turf, Ballast, Talus, Clump-Foliage, trees, Earth Colors Liquid Pigments, adhesives, Hydrocal and Complete Road System.

- Over 40 products included
- Can be adapted to any scale
- Detailed instructions for River Pass placement

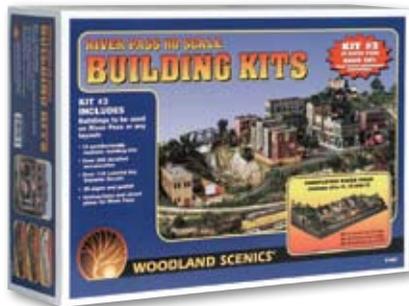

[†]Conforms to Health Requirements of ASTM D4236.

“...I am having tremendous fun building my River Pass Complete Layout Kit. Amazing how understandable the directions are – even for someone like me who has never built anything...!”

~Diane, Park City, Utah

**HO
SCALE
4x8-foot**

Building Kits #3† S1487

These kits are a collection of 15 buildings, created with authenticity and fine detail. These include all the detailed accessories and Dry Transfer Decals you'll need to detail the buildings on your layout. Use the included River Pass street plan, or create your own HO scale plan, using an existing layout.

- Over 200 detailed accessories
- 110 Dry Transfer Decals
- 20 signs and posters

Train and vehicles not included in these kits. Track and buildings sold separately.

Scenery Kits†

Mountain Valley® Scenery Kit S928

This kit takes your flat board layout, with only a track, and brings it to life. It includes all the necessary landscaping material and detailed, illustrated instructions to make tunnels and terrain profiles.

- Covers a 4 x 8-foot area
- Designed for HO scale, adapts to N or O
- Over 24 products included
- Teaches terrain and landscaping techniques

Train, track, buildings and vehicles not included.

Complete Landscape Kit S926

This is an excellent landscape starter kit that includes an assortment of our products.

- 18 white metal tree armatures
- Three colors of Foliage
- Seven tree stumps
- Two packages of Green Blend Blended Turf
- Three packages of turf accent colors

The Scenery Kit S927

This kit is for beginners.

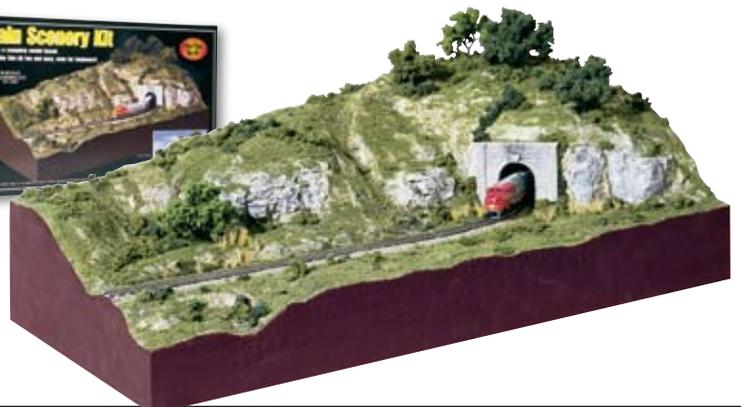

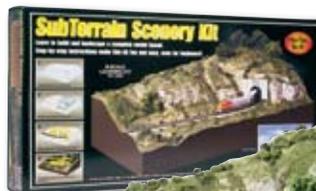

- Learn terrain and landscaping techniques
 - Build a 10 x 18-inch HO scale diorama
 - Over 20 products included
 - Display an engine or piece of rolling stock
- Train not included.*

SubTerrain Scenery Kit S929

This kit uses SubTerrain, Terrain and Landscaping Systems.

- Build a 12 x 24-inch N scale diorama
 - Learn SubTerrain's five easy steps - no mess or complicated calculations
 - Create realistic terrain features with Plaster Cloth, rock castings and a Tunnel Portal
 - Make trees and landscape with various ground covers, Ballast, Talus and other scenery products
- Train not included.*

River Pass Scenery Kit[‡] S1488

This kit has a variety of landscaping products including Realistic Water, Water Effects, Fine-Leaf Foliage, Dead Fall and more.

- Covers any 4 x 8-foot layout
- Designed for River Pass
- Over 40 products included
- Can be adapted to any scale

Track sold separately.

“...I’ve used Woodland Scenics products for my Christmas Village for a long time. Glad to find a place where I can find everything, and even more stuff that I can use, but didn’t know about...”

~Susan Allenback, Baltimore, MD

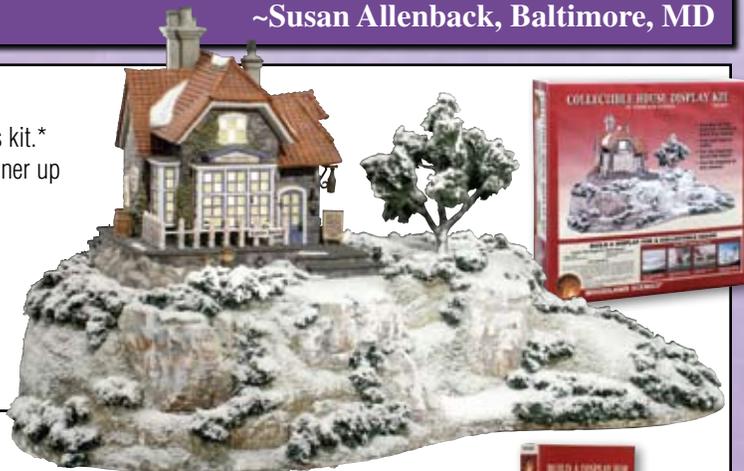

Collectible House Display Kit[‡] CH1057

All the materials needed to build this display are included in this kit.*

This kit can be assembled quickly and easily. Great for the beginner up to the expert.

- Make an 18 x 10-inch display
- Over 11 products included
- Use as a night-light in any room
- Teaches how to use the Terrain and Landscaping Systems

*House not included.

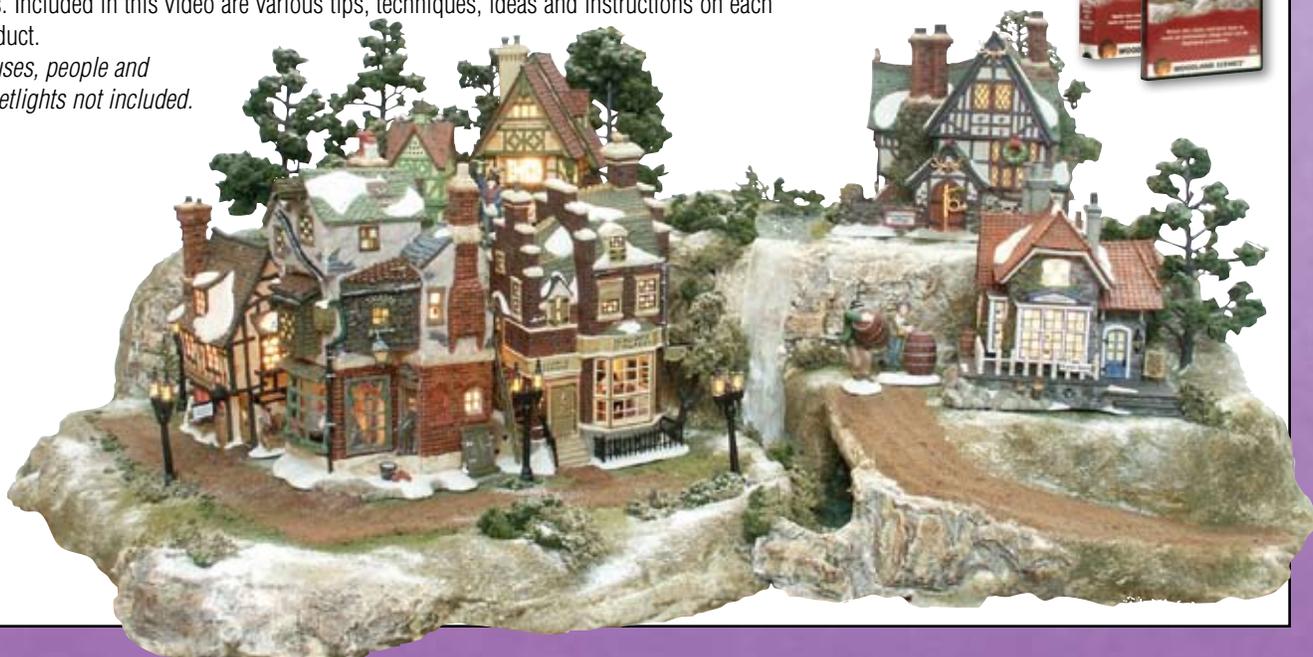

Build a Display for Collectible Houses

VHS CH1056 - DVD CH1055

Create the magic through this step-by-step video that teaches you how to build a 31 x 44-inch display for your collectible houses. This enchanted scenery display can be shown year-round and modified to fit any table, buffet, TV, dresser, fireplace or mantel. Use your imagination when working with these revolutionary Woodland Scenics® products. Included in this video are various tips, techniques, ideas and instructions on each product.

Houses, people and streetlights not included.

[‡]Conforms to Health Requirements of ASTM D4236.

Scene-A-Rama™ School Projects

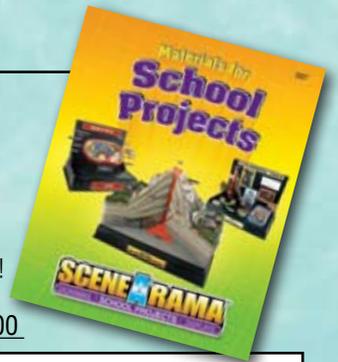

A line of products designed especially to aid students in building dioramas, displays and various arts and crafts. Scene-A-Rama not only provides easy-to-use materials, but also an extremely helpful Web site full of video demonstrations, ideas, tips and techniques! With Scene-A-Rama, you can create that winning A+ project!

- **For any subject** – Social Studies, Math, Science, Language Arts, History, etc!
- **For any student** – preschool to high school, college and beyond!
- **For any project** – volcanoes, masks, Indian villages, storybooks, mobiles, missions, pyramids and much more!

Scene-A-Rama products meet Health Requirements of ASTM D4236.

Scene-A-Rama Catalog SP4200

Project Book SP4170

This idea book shows you everything you need to make your best school projects, dioramas and displays. If you can dream it, you can make it!
84 full-color pages

Project Base & Backdrop

Makes the perfect foundation for your diorama or display. The Backdrop fits snugly into the grooves on the molded, black base and provides a durable backdrop for painting, decorating and labeling.

Large SP4165 Project Area: 10 3/4" x 6 1/4" x 11"

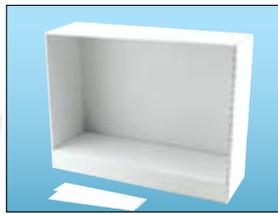

Small SP4166 Project Area: 7 3/8" x 10 3/4" x 7 1/2"

ShowBox™ SP4167

The ShowBox is compact and great for shoebox dioramas, displays and more. Just build the diorama inside and then paint or decorate the outside.

Project Area: 8 1/2" x 13" x 4 1/2"

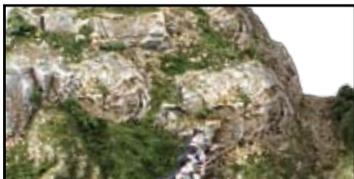

Accents

Use these five Accents to enhance any diorama or display.

Foliage & Grasses SP4120

Rock Making Kit SP4121

Ripplin' Water Kit SP4122

Winter Effects SP4123

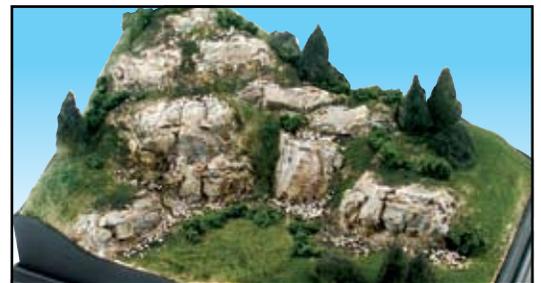

Desert Plants SP4124

Diorama Kits

Each kit includes everything you need to make basic scenery, a desert oasis, a mountain or water scene.

Basic Diorama Kit SP4110

Mountain Diorama Kit SP4111

Desert Oasis Diorama Kit SP4112

Water Diorama Kit SP4113

ADHESIVES AND ACCESSORIES

Plaster Cloth SP4140

Use Plaster Cloth to make hard shell surfaces for land terrain, or apply wet Plaster Cloth over newspaper wad forms, balloons or other shapes to make masks and other arts and crafts.
8" x 11 1/4"

Project Glue SP4142

Project Glue is great for gluing trees, bushes, paper and more to your school project.
3 oz.

Casting Plaster SP4141

Use Casting Plaster to make rocks, lava and casts of almost anything.
8 oz. package

Sticky Bond® SP4143

Sticky Bond is a contact adhesive.
2 oz.

Trees

These four tree types (Green Deciduous, Autumn Deciduous, Conifer and Palm) can be used to model trees for almost any locale in the world.

Deciduous Trees
SP4150 (2"-3 3/4" pkg.)

Conifer Trees
SP4151 (4"-6 1/4" pkg.)

Palm Trees
SP4152 (4"-5 5/8" pkg.)

Autumn Trees
SP4153 (2"-3 3/4" pkg.)

ReadyGrass® Sheets

Use any of these three ReadyGrass Sheets where you want a flat grassy or sandy surface on your diorama.
Each Sheet is 10 3/4" x 16 1/4".

Summer Grass SP4160

Green Grass SP4161

Desert Sand SP4162

Building & Structure Kit SP4130

This kit includes a variety of construction materials.

Sculpting Kit SP4131

This kit includes everything you need to sculpt, paint, detail or add texture to figures, animals, birds, planets and much more.

Horizon & Detail Kit SP4132

You get everything you need in this kit to make spectacular backgrounds.

Classroom Packs

PineCar Derby is a fun racing event where everyone gets to participate and have a great time! PineCar creates products that are used by participants, such as the Boy Scouts of America Pinewood Derby, Royal Rangers and other youth races, where individuals and teams are engaged in exciting competition. Race participants take a wooden block and shape it into a racecar form. Then they add weights, decals and other accessories and race their cars by gravity down a sloped track. Besides being fun, the derby also:

- Develops relationships and makes a great team-building event
- Builds esteem through accomplishment
- Teaches creativity, science and woodworking skills
- Is perfect for classes, camps and church groups

PineCar is dedicated to helping you have fun while you create the racecar of your dreams with over 160 products including kits, accessories and parts. Visit your favorite hobby shop for these products, or call us for more information.

Complete Kits & Racer Bodies

Simple to superior designs and kits available.

- Complete racing kits
- Blocks & wedges
- Racing wheels & axles
- Pre-cut designs

Speed Products, Tools & How-To Videos

Give you that extra 'boost' you need.

- Weights
- Lubricants
- Wheel Turning Mandrel
- Shaping & alignment tools
- How-to videos & manuals

Paint Sets & Decals

Trick out your ride with attitude and style.

- Complete paint kits
- Dry Transfers & Stick-On Decals
- Body Skins (paint alternatives)

Custom Parts

Special components for a one-of-a-kind racer.

- Engines & Exhaust Pipes
- Spoilers & Roll bars
- Drivers & Windshields
- Body Parts

Sponsor Your Own Derby!

We have everything you need to sponsor a race including:

- Tracks
- Trophies
- Race & Craftsmanship Ribbons
- Participant Ribbons & Certificates
- Elimination Charts
- Racing Forms
- Official Scale & Gauge

Or get the complete PineCar Derby Race Package, which includes everything you need in one sturdy, carry-all box!

The PineCar Derby is a great team-building event, perfect for classes, camp and church groups, Girl Scouts, Boy Scouts, companies and organizations!

Look for the PineCar Merchandiser at your local hobby shop. Ask for our new catalog or go to www.pinecar.com to see our complete line of products to meet all your racing needs!
