Wild Grass

Create tall ground cover with Wild Grass.

Basic Use

1. Remove a pinch of Wild Grass, then roll between fingers for an uneven, natural look.

2. Cut to preferred length with scissors.

3. Dip cut end in Project Glue and place on diorama. Hold until setting begins.

- Where to Use Wild Grass

Create a wheat field.

Add natural grasses to a landscape.

Add a thatch roof to a structure. Tie together for thatch bundles.
